The Collar Question

Do you get the satisfaction your money ought to bring when you have your collars or cuffs laundered? Are the edges smooth? Are the folds or points neatly turned? Is the color a delicate, pearly white? Is the finish that soft effect so much preferred by fastidious dressers? We succeed in all these things. Surely our work is worth a trial. You will be a steadfast patron.

Board of Equalization.—The Coos county Board of Equalization is in session at Coquille today. The principal matter to come up will be the question of raising the assessment on various pieces of property. It is expected that the owners will protest against a raise. The action is the result of the showing made by Manager Shine of the Southern Oregon Company, at the recent hearing.

Has Another Landslide.—Another big block of earth slipped from W. T. Merchant lot into Cedar street, Saturday, about sixty tons of dirt slipping into the new cut. The Merchant residence is being moved, and if it had not been for this, part of it might have been affected. The cut in front of the Merchant property is about thirty-five feet, but if the slides continue, some intimate that the lot will soon be brought to grade.

Many On Outings.—Many took advantage of the fine weather prevailing yesterday to go on outings. One party that spent the day in the lower bay was composed of the Bargett, Neff and Harrigan families. The Sehlbrede family and a number of friends made a trip to the fish hatchery on Coos River. Many took trips through the woods, gathering autumn flowers and the vari-colored leaves that have transformed the woodlands into one of the most beautiful sights imaginable.

M. N. Knuppenburg to Establish Sales Agency at Eureka for Libby Mine.

M. N. Knuppenburg, the new manager of the Libby Coal Mine and the property here, formerly owned by the Oregon Coal and Navigation Company, will leave in a day or two for Eureka, Cal., where he expects to establish a sales agency for Libby coal. There is a big demand for Coos Bay coal at Eureka, and it is believed that a big trade for the Libby product can be worked up there. Mr. Knuppenburg also expects to develop the business at other points along the coast so that the mine may be worked at its maximum capacity. Mr. Knuppenburg stated today that a trial shipment of Libby coal would be made to Eureka in sacks so that dealers and consumers there might have an opportunity to test it. Following that, he and Col. Buttz, will make a trip to Eureka to arrange for opening the agency there.
