The policy of the Coos Bay Times will be Republican in politics, with the independence of which President Roosevelt is the leading exponent.

SEE GREAT COMMERCE ADVANCES

Leading financial papers in the east declare that hardly any one can be found in the financial community who does not believe that the next few years will witness commercial activity greater than the country has ever enjoyed.

The foreign capitalists were at first afraid of the Roosevelt policies, but had become accustomed to them and had decided that the method of reform to which the republican party was committed would not endanger the commercial progress of the country.

Thanks to the results of the election there is a clear sky overhead. There is nothing in sight to alarm the industrial world and keep it from giving undivided attention to a most important task—the full restoration of prosperity.

The men of brain and drawn in this country can safely forget national politics for a season and think and talk shop. They can afford to pay exclusive attention to "the whirling spindles and the turning wheels" and "the chimneys filled with eager fire, raked and grasped by the hands of the countless sons of toil."

THE AUTOMOBILE INDUSTRY.

Interesting statistics have just been collected which show the surprising growth and magnitude of the automobile industry in this country. The present capital of this business is \$94,000,000 with \$36,000,000 invested in kindred trades and \$57,000,000 in garages and retail salesrooms, making a total of \$187,000,000 in a business practically unknown ten years ago.

WITH THE TOAST AND TEA GOOD EVENING.

By a secret, alchemy patriotism touches the most commonplace of life, and transforms it into lofty heroism. It hurls men forth, forgetful of themselves, to hazard life itself at fearful odds.

Dr. Thomas E. Green.

November.

Garbed like a sombre nun she stands; Within her arms and in her hands The withered husks of glories fled.

And while with cheer the home fire glows We can forgive her sober dress;— It can not make her bounty less To know earth's brightness is o'er-past;

When round the festive board we meet, Friends parted long with joy to greet,

What matter skies of blue or gray?— Love can transform the darkest day. Then greet this stranger with a smile, She'll only stay a little while.

When the weather is bright and the women are on the streets a polite man does nothing but take off his hat and bow.

It is hard for children to understand why they should tell their troubles to the Lord. What's the matter with telling them to mother?

A man who can mine coal first rate doesn't want to do it; he wants to be a congressman or a banker, or do something else that he can't do.

The first fault a girl finds with her mother is that she is too patient with father, and her first criticism of father is that he doesn't appreciate mother at her worth.

Answer to correspondent: It depends upon the size of the town. A \$10 hat may be called a creation in Coquille, but in Marshfield the hat must cost at least \$20.

The talk at an afternoon reception where there are thirty or forty women is said to remind the silent spectator of a train rushing through a succession of short tunnels.

It takes, as a rule, the coming of three babies and the cooking for the family to change the Psyche knot on the back of a girl's head into a doorknob on the back of a woman's.

There is a certain shock experienced by all bridegrooms. It is occasioned by looking up suddenly at the bride and finding her looking critically at her husband instead of tenderly.

The life of a dress suit is about ten years if the young man is careful of it and doesn't lend it to anyone fatter than he is. A girl has to get a new party dress every year or look like a last year's bird's nest.

You can win your way into any man's heart by laughing at his jokes. The men all think they are too funny to live, and in addition the men have been so spoiled by their giggling women folks that they think they are great humorists.

The town, man thinks all a farmer does is to sit down on a stump and watch things grow. A farmer thinks all we do in town is to sit behind a counter or at desk and rake in money. This is the reason every farmer wants to move to town, and every town man wants to be a farmer.
