George Mackenzie Who Recently Came Here From Kentucky, Has Novel Experience in Marshfield.

George Mackenzie who arrived on Coos Bay the other day with his penance of meeting here friends wife and family, had the novel experience that he had left in England when he left that country a few years ago. Its standing timber alone is estimated to exceed fifty billion feet, and there are more than 400 square miles of coal lands. Three hundred dairy farms surround Coos Bay, and the farming and fruit raising industry offer good opportunities."

(By Associated Press.)
HONOLULU, Nov. 18, via San Francisco, Nov. 24.—The Hawaii Shimpo, the leading Japanese daily newspaper of Hawaii, has received from its Tokio correspondents what purports to be the text of a treaty concluded between Japan and America regarding coolie immigration. It is stated that the signing of the treaty will not be announced until next February.

According to the Shimpo, the treaty will express belief in the preservation

of the territorial integrity of the Chinese empire and that equal opportunities for commerce should be enjoyed there by all foreign nations and that equality of treatment should be accorded all such foreign nations.

The third article reads: "The high contracting parties agree that neither government shall allow the immigration laborers among their populations to the country of the other until a further understanding in the matter be reached, believing and agreeing that the employment in one country of laborers of the other country tends to impair the existence of the friendly relations between the two governments. The agreement is alleged to be signed by Secretary Root and Baron Takahira."

CUT GARDINER ASSESSMENT.

Douglas County Board Reduces Figures.

ROSEBURG, Nov. 24.—By voting upon the assessment of the property of the Gardiner Mill Company, the Board of Equalization completed its labors for the term, and in a day or two Assessor Staley will complete the summary of the assessment rolls. As in the case of the Southern Pacific Company, passed upon Thursday, Mr. Staley's colleagues, Judge Wonacott and Clerk Lenox, failed to sustain his assessment upon the Gardiner Mill Co. His figure of \$70,000 upon the sawmill was cut to \$55,000, where it stood in 1907 and 1906. The company's logging plant at Schofield, near Gardiner, was also kept at its former figure—\$10,000, as against an increase to \$20,000 by the assessor—and its logging plant near Scottsburg, which had been overlooked by the deputy assessor in that district, was given a valuation of \$4,000. A dynamo, which Mr. Staley had increased in valuation from \$300 to \$600, was given a compromise rating of \$450.

ROCKEFELLER SAYS HE OWNED BUT ONE-FOURTH OF "SYSTEM"

TURKEY IS 30 CENTS A POUND

High Price of Bird Likely to Cause Substitution of Other Meat

With turkey at thirty cents per pound, it is likely that ducks, geese and chicken will be substituted for the Thanksgiving bird in the national feast dinners in many homes Thursday. The birds weigh from eight to fifteen pounds so that the cost of turkey alone would be from \$2.50 to \$4.50. The cranberries, celery, fruit, etc., would make the cost of the "goodies" usually associated with Thanksgiving, pretty high.

With wild ducks as numerous as they have been the past week, it is likely that they will take the place of the Turkey in many Coos Bay homes. The price of chicken will probably also go a few notches higher on account of the demand that will probably result from many feeling that turkey is a little too expensive for them.

ROOSEVELT'S TURKEY WEIGHS 35 POUNDS

Particularly Fine Bird Selected For the White House Dinner on Thanksgiving Day.
DERBY, Conn., Nov. 24.—President Roosevelt's Thanksgiving turkey now weighs thirty-five pounds, and is the king pippin of Horace Vose's flock on his farm, near Westley. Mr. Vose says he's in "roking" shape and that he can lick any other turk on the farm. "He is a daisy," said Mr. Vose, "and when decorated with the usual trimmings and the proverbial cranberry sauce he will make a feast even a President may well be thankful for."

Mr. Vose asserts that the bird is one of the finest he has ever sent to the White House, and he has been furnishing the birds for the Thanksgiving feasts there for years, always sending the finest one in his flock free.

LAND NEAR MYRTLE POINT.

Ninety-Two Quarter Sections Open For Settlement soon.

The Myrtle Point Enterprise says: The General Land Office has decided to withdraw on January 20, 1909, 91,500 acres from the Umpqua Forest Reserve. This embraces some of the finest dairying, fruit and timber lands in Oregon, being located in Coos and Western Lane and Douglas counties.

"The dairying and fruit lands will be subject to the Homestead Act only, but the timber lands will be taken up under the timber and stone law. "One of the peculiar features of this opening is that squatters rights will be recognized. After December 21 persons may settle on the land and prepare to make it their home. The rights of such squatters will be recognized as prior to those who file on January 20."

It is expected that there will be a great rush for these lands, owing to the fact that similar land in that section is held at from \$50 to \$200 per acre.

"In the immediate territory of Myrtle Point there are ninety-two quarter sections to be thrown open, as follows: In township 28, range 10, sections 2 to 7, both inclusive, 9, 18, 14, 15, 16, north half of 21 and 22, all 23 and 26; in township, range 10, sections 1, 3, 5, 7, 13 and 15; in township 30, range 10, sections 4, 5 and 8."

MAYNARD CASE UP.

Local Accident Cause of Damage Suit.

PORTLAND, Nov. 24.—In the United States Court, W. C. Bristol demanded a judgment on the pleading submitted in the case of C. W. Maynard against the Umpqua Steam Navigation Company, in which the former demands \$10,000 in satisfaction of injuries received on a stage coach operated by the defendants.

In 1907 Maynard engaged a passage from Drain to Marshfield by boat and stage. After getting on the coach, he alleges that through inexperience of the driver, the vehicle was precipitated down a six-foot embankment in the darkness of the night of March 8. The plaintiff received damages to his left arm which caused him to become an inmate of a North Bend hospital for several months. It is the contention of Mr. Bristol that the company guaranteed Maynard a safe passage when it sold him a ticket. The point raised is not new, but the character of its presentation is somewhat novel.
