

Two Good Policies

to have is one upon your Life and the other upon your Property. You are then protected in a double sense, and your family is also protected in case anything should happen to you, or the house burn down by accident. The cost of either Fire or Life Insurance is infinitesimal in comparison with its great blessings and the actual, substantial protection it affords to both you and your posterity.

A Clear, Steady Light,

such as will not dazzle or hurt the eyes, is given by one of our Frosted Electric Lamps. It gives a soft illumination without the glare so peculiar to gas and to the ordinary clear bulbs. Let us install a system of Electric Lighting in your home. You will find it much superior to oil lamps in every way, and far better for the eyes of yourself and family. Our workmanship is thorough and our prices the standard of moderation.

Malthoid Roofing

Mr. W. T. Somes, Proprietor of Bimini Hot Springs Hotel, Los Angeles, Cal., U. S. A., writes as follows: "Our hotel building, a flat roofed structure covered with Malthoid Roofing, is situated quite near the large Bimini Bath Houses that burned so fiercely the night of November 15th. The wind carried blazing shingles and red hot cinders in showers to my building, where they simmered on the Malthoid Roofing and went out, doing no damage beyond a number of small blisters raised on the surface of the roofing. We have had one rain since the fire and the roof is tight."

WILL CHARGE FOR TIMBER

GOVERNMENT TO STOP GIVING AWAY TIMBER ON ENTRIES UNDER STONE ACT.

WASHINGTON, Dec. 4. — Beginning December 1, unreserved public timber lands entered under the timber and stone act must be paid for at its appraised value and will no longer be sold for a flat rate of \$2.50 per acre. Secretary Garfield promulgated a regulation to this effect, basing it upon the language of the law, which says that timber land shall be sold "for minimum price of \$2.50 per acre." Garfield holds that if \$2.50 is the minimum price, a greater amount can legally be charged for valuable timber lands.

Under the new regulation, a person desiring to make a timber entry must file his application, accompanying it by an affidavit stating that he has been personally upon the land and must submit his own estimate as to the amount of timber and its value and value of land when cleared. These filings will give him a preference right to the land.

Within nine months, the government will undertake to make its own appraisal and, when this is done, the applicant can have the land at the government's price, but his preference right will be forfeited if he fails to make payment within 80 days after the Interior Department the government fails to complete its appraisal. Whenever the government fails to complete appraisal within nine months, the applicant can secure the land by making payment at his own appraisal valuation. Where the government's appraisal is considered too high the land can be reappraised, at the expense of applicant.

In no instance will timber land be sold for less than \$2.50 per acre. No entryman can cut timber during the time appraisal is being made, nor before he receives a patent from the government.

Last winter Secretary Garfield endeavored to persuade congress to amend the timber and stone act so as to provide for the disposal of timber land at appraised value. When congress failed to act it was announced that the secretary would do by regulation what congress had failed to do by legislation. This is the carrying out of that threat. Garfield's order is not retroactive. It does not affect any entry heretofore made.

Massachusetts has been spending at the rate of about \$400,000 a year in removing grade crossings during the last eighteen years.

The Outlook announces that Theodore Roosevelt will take up his work with that journal March 6, 1909, will sign his own articles and will be more than a mere contributor.

Irish cows yield from 300 gallons of milk to over 1,000. In one case the yield was 1,469 gallons.
