Is Recovering.—C. T. Smith, the Kentuck Inlet pioneer who was stricken with paralysis a few weeks ago, continues to improve and his complete recovery is now expected.

Bee Sails.—The lumber steamer Bee, which has been loading at the C. A. Smith mill, sailed today for Bay Point. The Nann Smith probably won't get out until tomorrow.

Initiate Fifty.—The Local Aerie of Eagles is arranging to initiate a class of about fifty next Wednesday evening. The list of candidates will not be given out until after the ceremony.

Wilhelmina to Sail.—The Wilhelmina will sail in the morning for Bandon. He has been kept here to load and also was delayed by reports of the Bandon bar being a little rough.

Council Tonight.—The Marshfield city council will hold a special meeting tonight to take up the matter of naming and numbering the streets and also to discuss the sewer question and other improvement projects.

Banquet On Tuesday.—The Coos County Bar Association banquet here will be held next Tuesday evening, January 26, instead of next Wednesday evening as was erroneously announced yesterday. It will be in the I. O. O. F. Hall.

Change Fight Date.—Managers Herron and Joseph of the Carranzas-Ross bout, have decided to change the date from January 27 to January 28. The change was made out of courtesy to the Chaminate Club, they announce, as they did not want to detract in any way from the attendance at the concert.

Start Cabinet Shop.—Hans O. Hage, a friend of O. O. Lund, who recently moved here from Grays Harbor, Wash., is arranging to start a cabinet shop on Broadway near Mills Slough. He is an experienced cabinet maker and will equip his shop to turn out high grade work. He moved from Wisconsin to Grays Harbor a couple of years ago.

Dredges Moves.—Capt. Peters of the dredge Oregon, decided to move up to the Cold Storage plant and cut the shoal there now, thus saving time. Otherwise, he would have had to lie idle for a few days until the vessels loading at the C. A. Smith mill got away. He will get back to the Smith mill within a short time and dredge the slip there as per contract.

Get Many Logs.—The Smith-Powers Logging Company yesterday afternoon and last evening brought down 4,500 logs from Allegany and turned them over to the mill. The logs have been accumulating on the North Fork for sometime, there not being sufficient water to bring them down. They will come in handy now as the mill needs them and the company's logging roads to South Inlet and Cunningham Creek are both out of commission owing to the high water.

Wires Still Down.—The long distance telephone wires are down between Myrtle Point and Roseburg and the Western Union wires are still down. In consequence there are no means of communication with the outside world. The long distance phone is working poorly between Coquille and Myrtle Point, service being possible only part of the time. It is uncertain as to when either long distance telephone or telegraph communication will be restored.

Mrs. Murphy's Loss.—Mrs. Dr. Murphy who resides on South Sheridan street probably sustained the heaviest loss from yesterday's high tide. Her residence is low and about three feet of water flooded the lower floors of the house. Her organ, stove and other fixtures were badly damaged. Marshall J. W. Carter and

others went down this morning and lifted the furniture and fixtures above the water but all had been more or less damaged. Mr. Carter estimates that her loss will be at least \$300.

NORTH BEND NEWS

The telephone line on Coos River and the Sumner line are down.

The new residence of Mr. and Mrs. Geo. Bolster will soon be ready for occupancy.

The new smokestack of the Gas and Electric Company's plant upon which men have been working for six weeks, has been completed.

There has been a decided change in the weather here since yesterday, the hills about the city this morning being covered with snow.

The Myrtle Point High School Basketball team will come to North Bend next week to play the Miller-Cleaver Business College team.

Frank Fahy and Miss Molly Fahy, who have been the guests of Mr. and Mrs. W. R. Simpson for a few days this week left yesterday for their home in Bandon.

Mrs. Nellie Coffelt of South Coos River, who went south sometime ago writes that she is now in Tucson, Ariz., and that she is much improved in health. This will be gratifying news to her many friends on the Bay. Her little daughter is also much improved.

The large amount of driftwood in the bay as a result of the freshets on the inlets and streams emptying into it, is causing considerable trouble for the small launches and boats. It is especially dangerous for the launches at night as the navigators are liable to collide with a log and badly damage their crafts.
