BAD SEASON FOR COLDS.

Colds and grip were quite prevalent last winter and Chamberlain's Cough Remedy was in great demand and performed some remarkable cures. Mrs. Mary J. Robinson of Cameron, W. Va., says: "Last winter I was taken with one of the awfullest colds I ever had in my life. I could not speak above a whisper and was very hoarse. I was afraid it was going to be pneumonia. I took one bottle of Chamberlain's Cough Remedy and in three days was lots better and could talk. I did not take but the one bottle and it cured me. I now tell everybody about Chamberlain's Cough Remedy and the good it did me." For sale by JOHN PREUSS.

BETTER DO THAT NUMBERING.

City Marshal Getting the "Hurry-Up Wagon" Ready For Business.

The work of numbering the streets has lagged for the past few weeks because of an alarming scarcity of the bright tin numerals of commerce designated by the City Dads as the correct thing to tack alike over the most haughty and humble lintel in this altogether prosperous and thriving community.

But the hardware men now have tin figures galore and the penalty imposed by the council for delay in putting the numbers up after the first day of this month will probably be enforced. So the laggards need not be surprised in the least to see the majesty of the law, in the person of the city marshal, drift in on them at any time and, after shackling them hand and foot, tote them more or less rudely to the city bastille, where they will languish for varying lengths of time according to the way the recorder happens to feel when he pronounces sentence.

No up-to-date business man can afford to go to jail even for a week to avoid blowing himself for 15 cents worth of street numbers, especially as he will have to do it eventually anyway.

The Times doesn't want to see such an untoward state of affairs to pass and it therefore begs the public to get busy and tack up the tin tokens that will make the marshal grit his teeth and hiss "follid again" when he starts out to gather a mess of procrastinating property-owners.

The city engineer will be pleased to supply the correct numbering for any lot, together with the latest name for each street, and the hardware dealers have arranged to supply the figures at the ridiculously low price of 5 cents per each or in lots of three for 15 cents, at that even a gas company can afford to buy a complete set and not pump any more than the usual amount of pure Coos County air into its useful but malodorous product. So let everybody get busy with the tacks and display the tin emblems of municipal progress and the forerunners of free mail delivery.

SALVATION ARMY APPEAL.

Editor Times: A few days ago we referred to the approaching week of Self Denial among the Salvationists of this country, which is to take place in this town especially from April 11 to 18, so we wish our friends to bear this in mind and be fully prepared to take part in this effort, everyone who admires the work of the Army take part in making this Self Denial a success, and we trust the people in this town will not be one bit behind. The American Soldiers are apparently bent on making the effort so far as the country is concerned the most successful ever held.

The most energetic methods are being adopted to insure success. Apart from the personal Self Denial of the Soldiers and friends of the Army, appeals are being printed and distributed containing statistics of the Army work, in all countries where it is at work.

And we trust that the friends of this town will do their best to help the Officers and Soldiers here to make this effort a splendid success.
