The Times is pleased to add its voice to the swelling paean of praise for the many good words that metropolitan journal is publishing concerning Coos Bay and all southwestern Oregon. The Journal is rapidly taking its place as Oregon's representative state paper because of its broad and liberal policy in giving recognition to all sections.

TAFT IS BEST PAID CHIEF

PRESIDENT ALLOWED \$25,000 PER YEAR WITHOUT ANY EXTRAS FOR TRAVELING EXPENSES.

WASHINGTON, D. C., April 15.—President William H. Taft will receive a greater compensation than any other president of the United States. His salary will be much in excess of that paid to President Roosevelt during his last year in the White House, though nominally it would appear that both were entitled to \$75,000. As a matter of fact President Roosevelt had a flat salary of \$50,000 and in addition to that there was \$25,000 at his disposal for traveling expenses. But he was entitled to only so much of the \$25,000 as was actually required for travel, and out of that amount he used approximately \$9,000. So that his salary, with travel allowance, only aggregated \$59,000.

President Taft on the other hand, gets no allowance for travel, but his salary is fixed at \$75,000, and if his traveling expenses are no greater than his predecessor he will be better paid than Roosevelt by \$16,000. The probabilities are, however, that President Taft will consume more money in travel than any president in times past; he is given to travel, and will spend much time on the road.

In the next regular session of congress another attempt will be made to vote the president \$25,000 annually for traveling expenses, and if this should go through Taft would be anywhere from \$25,000 to \$39,000 better off than his immediate predecessor in the matter of compensation.
