Boy Is Hurt.—Charles Smith, a son of Master Mechanic Smith of the local railway, cut his foot rather severely with an ax Saturday. No permanent ill effects are anticipated although the injury is very painful at present.

Cuts Off Toe.—Carl Haglund, a South Marshfield boy, cut off his big toe while chopping wood Saturday. The member was completely severed, dropping off when Dr. Houseworth who was called to dress the wound, started to wash the blood away.

Many at Dance.—The benefit dance given by the Eastside baseball team Saturday night was attended by nearly fifty couples and was a most pleasant social event. The proceeds will go towards defraying the expense of uniforms, etc., for the ball team.

Well-Known Couple Wed.—Herman Smithgall and Mrs. Laura Dolan, two well known residents of South Marshfield, were quietly married last week by the Rev. Cleveland of the Baptist church. They will make their home in South Marshfield and are the recipients of congratulations from a host of friends.

Flour Still Higher.—Two advances in the price of flour were made last week, the first being forty cents per barrel and the second five cents per barrel. The advance is the result of the high price which wheat has been boosted by the Patten corner in Chicago. F. S. Dow says flour is now just twice the price it was when he came to Coos Bay several years ago.

To Discuss Baseball.—It is announced that a meeting of representatives of the baseball fans of Marshfield, North Bend, Coquille and Bandon will be held here within the next ten days to try and revive the Coos county league. It is also proposed to endeavor to have Myrtle Point organize a team this year. The plan is to limit each team to two hired or non-resident players, thus keeping down the expenses.

Millicoma Club Election.—The annual election of the Millicoma Club, is being held this afternoon. There is only one ticket in the field, most of the old officers being honored by re-election. The principal change is that E. W. Kammerer and W. H. Kennedy are to fill the vacancies on the board of governors caused by the retirement of W. U. Douglas and J. W. Flanagan. Dr. C. W. Tower is to be re-elected president.

Dr. Geo. E. Dix, vice-president, and W. F. McKee, secretary and treasurer. The old house committee consisting of J. D. Goss, Herbert Lockhart and W. R. Haines is also to be re-elected.

Progress Club Meets.—The Progress Club will meet with Mrs. J. W. Ingram tomorrow afternoon at 2 o'clock.

Marshfield Couple Married.—An announcement was made today of the marriage of Roy Moore and Mrs. August Helming, widow of the late August Helming, a well-known furrier here. The wedding occurred a week ago Saturday, but only a few friends were apprised of it. Mr. Moore is associated with his brother, Clay Moore, in conducting the Claymore Bar.

Dance Was a Success.—The dance given under the auspices of a committee of the Knights of Finland in the Knights of Finland hall last Saturday evening for the benefit of Mrs. Hermann Grant, was a pleasant social and financial success. There was a good crowd in attendance and the music was excellent and helped make the evening a most enjoyable one. A nice sum of money was realized and as nearly everyone donated their services it all goes to a very worthy cause.

BRIEFS OF BANDON.

Ferse Told News of Lower Coquille From The Recorder.

I. J. Rhein, formerly of the Cape Blanco wireless telegraphy station, has been transferred to the Independence receiving ship at Mare Island, Golden Gate.

Uncle Harry Baldwin is now at the Mercy hospital in North Bend and we are informed that he is getting along fine and is happy and expects to make his future home at the hospital. His many Bandon friends will be glad to learn of his great contentment and will wish him every success.

Everard Boyde had the misfortune Saturday, to shoot himself through the foot, just back of the great toe, by the discharge of a twenty-two caliber rifle. The ball went clear through the foot, tearing an ugly hole as it went. The young man is getting along quite well at present, however, under the skillful treatment of R. W. Boyle and expects to be at the store again in a few days.

BANDON BRICK YARD.

B. L. Tracy Will Start New Industry There.

BANDON, Ore., April 19.—B. L. Tracy has ordered the machinery and will proceed immediately to install a brick yard in the east end of Bandon, next to Dyers, machine shop. Mr. Tracy is a man of wide experience in the brick and concrete work.

He says the clay is of the finest quality and there is a sufficient amount to run a first class yard for twenty-five years. He has already received assurances that will furnish a market for all the brick he can turn out and the new industry promises to be a good adjunct to the business interests of Bandon.

The machinery will probably arrive in about ten days, when the work of installing the plant will be immediately started and Mr. Tracy expects to be burning bricks inside of sixty days.
