

WHY

"1892" Pure Spun Aluminum Kitchen Ware Is Better Than Agate or Enamel

Because it is sanitary and saves your money, time and health. The genuine spun aluminum ware, stamped with the Maltese Cross, will outlast any other cooking utensils and is guaranteed by the makers for twenty-five years.

It is pure, wholesome and hygienic—no danger of metal poisoning—cannot chip into the food, because pure SPUN Aluminum expands with the heat and will not crack, scale or peel like the old style ware.

Enamel ware is iron coated with colored glass. Heat causes the glass to chip off into the food in minute particles, which, taken into the stomach, is apt to cause serious troubles, including cancer, according to some medical authorities.

"1892" Pure Spun Aluminum Ware is made from solid Aluminum throughout—no coating of glass—and expands uniformly under heat. It cannot crack, scale, peel like the out of date enameled utensils; it does away with all possible danger from this source.

You owe it to yourself, and to every member of the household, to give this new and better kitchen ware a practical test. If it fails to do what is claimed for it, you get your money back without a quibble or a cross word.

At your dealers.

About Prescriptions

The best of medicines are none too good for sick folks. It's bad enough to be sick without running chances with second grade drugs. That's the reason we buy only the very highest quality of everything. It's a great satisfaction to us to know that every prescription we send out is just as good as drugs will make it. No matter what you paid for it you couldn't get any better.

OUR PHARMACISTS ARE REGISTERED AND EXPERIENCED MEN who know their business thoroughly and competent to compound prescriptions anywhere in the world.

OUR PRICES ARE REASONABLE and will bear comparison with any reliable drug house anywhere at any time.

Maximum 56
Minimum 43
At 5 p. m. 54
Precipitation none
Wind, Northwest; clear.

Undergoes Operation.—Ed. Gillespie of Prosper, who was operated on at the Home hospital Sunday by Dr. Horsfall for appendicitis is getting along nicely.

Is Laid Up.—F. E. Wilson of Temple & Wilson, undertakers, is laid up with a severe attack of boils, the aftermath of a threatened attack of blood poisoning.

Has Leg Straightened.—Ed. Stock of Drain was operated on by Dr. Horsfall this week to straighten his right leg, the limb being badly deformed as the result of a fracture two years ago.

Gets Big Launch.—The Smith-Powers Logging Company has placed the order for sternwheel gasoline boat, 59 feet long and eleven feet stern, shallow draught, to be used in towing logs.

Build New Homes.—Andrew Inglund is completing a fine new home in Eastside near the east end of the ferry road. John Arlandson is also building a residence in Ferndale near the Ferguson home.

School Is Closed.—Owing to the ill-health of the teacher, one division of the Eastside schools has had to be closed. Miss McLain has been in poor health for some time and it is hoped that by giving her a vacation, she will be able to recuperate fully.

Delayed Journey.—C. A. Johnson the furniture man who expected to leave with his wife and youngest child for an extended visit at his old home in Europe this week has been compelled to postpone his trip because of a severe attack of the grip. He was able to be out today for the first time in eight days.

Kick On Baseball.—Members of the Eastside Sunday school are threatening to put an end to Sunday baseball in Eastside if the club does not find new grounds. They claim that the ball teams play in the afternoon when services are in progress at the church and that the grounds are adjacent to the church, the noise is very distracting.

Ribs Fractured.—B. F. Ross, the well-known pioneer of Catching Inlet, is suffering from three fractured

ribs, the result of an accident at his home the other day. They were rolling some large blocks of fire-wood down the hill to the house. Mr. Ross attempted to stop one of them at the right place but it had gained such momentum that it threw him to the ground, injuring him quite severely.

Sail Today.—The Nann Smith will probably cross out late this afternoon with a cargo of lumber for Bay Point.

Court Next Monday.—Judge Coke will convene the April term of circuit court at Coquille next Monday. Brief sessions will be held Friday and Saturday probably to dispose of motions and clean up the docket of last term.

Low Tide Today.—One of the lowest tides of the season today caused considerable bother for owners of boat houses G. W. Kaufman's launch was left fast on the mud flat but was not damaged. Next month, the lowest tides of the year will come.

Sail On Alliance.—Before the Alliance sailed yesterday afternoon for Portland, the following passengers in addition to those whose names were printed in The Times Tuesday, boarded her for the northern port: L. T. Holdridge, Tony Imhoff, Geo. Martin, Mrs. Randall, Hulda Randall, Lizzie Burns and M. T. McClure.

Roof Lasts Thirty Years.—Carpenters are at work this week placing a new roof on County Commissioner E. A. Anderson's elevated residence, on Broadway North. Mr. Anderson says the old roof which was of red Cedar shingles lasted thirty years and the shingles are still good, the repairs being made necessary because of the tin rusting out in the angles of the roof. This is almost the record for roofs in this section.

Favored Port Bill.—In a business letter to The Times, J. H. Upton of Curry includes this interesting note: "I was greatly interested in your Port Commission Supplement and have read carefully the able and lucid explanatory articles by Mr. Clarke, and am pleased with his insistence that it is the people, the inhabitants, who are doing the business and that their veto ever impends. Pity Curry county has not daily connections with the Bay by mail."

Drive Piling.—Today, the driving of the piling for two of the largest buildings to be erected in Marshfield this summer will be started. The Nobles will start the foundation for the Eagles new hall on South Second street and it is expected that Contractor Horne will get the first piling for the Oregon Coal and Navigation Company's new warehouse in this afternoon. The latter building will be rushed, it being planned to put two pile-drivers to work on it.

Miss Nann Smith to Wed.—Word has been received here of the marriage of Fred. Warner of Sacramento, Cal., and Miss Nann Smith, eldest daughter of Mr. and Mrs. C. A. Smith, which will be solemnized

Personal Notes

MRS. W. F. SQUIRE left yesterday for California to visit relatives.

P. E. LARSEN of Allegany, was in Marshfield today on business.

MRS. ALFRED MATSON has been quite sick for the past few days.

MRS. CARL EGANOFF of Coos River, was a Marshfield shopper today.

MRS. JOHN VINEYARD of Eastside, was shopping in Marshfield today.

MRS. HAYDEN of West Marshfield, who has been ill for some time, is in a very critical condition.

FRED SAX, who fought with Carranza here last Friday night, and his brother left yesterday for their home in Portland.

MRS. STEPHEN ROGERS of South Coos River, was a Marshfield visitor today. Mrs. W. H. Bohlen of Coos River spent today with Marshfield friends.

JOHN PREUSS left yesterday for San Francisco where he will consult specialists regarding his health. If he is unable to secure relief there, he may go to Rochester, Minn. Mrs. Preuss will probably join him later.

J. W. UMSTATT has leased the house on the Grimes property near Central avenue and Second street. Mrs. Umstätt and their son are expected back from California where they have been spending a few months for the latter's health.

E. B. DUFFY of Portland, one of the owners of the Condensary plant at North Bend, is a guest at the home of Mr. and Mrs. C. F. McCollum of North Bend. He will spend a week or so here looking after business interests. He is connected with the Denver & Rio Grande Railway.

In Minneapolis about May 12, Mr. Warner has been engaged in the real estate business at Sacramento and has been closely associated with Mr. Smith in business. He visited here a year or so ago. The marriage is the culmination of a romance dating from the meeting of the young people at a winter resort in Pasadena, Cal., a few years ago.

Wants The Ferry.—F. S. Dow of the Oregon Coal and Navigation Company, today offered a free landing and slip for the Eastside ferry to Judge Hall of the county court. Mr. Dow said that if his offer was accepted, the slip would be built with the new warehouse on North Front street. The offer followed the delay the city council is causing in not having the regular slip fixed up. Councilman Nelson who has charge of it says he is unable to get a dredge to do the work. Judge Hall took Mr. Dow's offer under consideration. The acceptance of the latter will mean that the ferry will land three blocks farther north on Front street than if the city's slip is used.

"EASTSIDE" is a winner.
