TOPICS OF THE TIMES.
The governor of Texas finds fault with the state legislature because it does nothing. He should be advised that a legislature that does nothing often adds to the joy of living.

Speaking of the matter of woman suffrage, about what per cent of the general average of men throughout the country believe their wives are incapable of voting intelligently?

A Nevada judge has decided that one or both parties to a divorce suit must have a bona fide residence in the state. That decision reduces the size of the spot on the map known as Reno.

A bill to prohibit the playing of football has been introduced in the lower house of the Arkansas legislature. Football is too rough. Something gentle, like lynching, might be a more popular sport in Arkansas.

LITTLE TALKS ABOUT TOWN

A GRIST OF COOS BAY GOS-SIP GATHERED HERE AND THERE ABOUT THINGS OF PASSING INTEREST.

"Nothing like fishing and pulling a boat to work up an appetite," remarked Jake Goldie yesterday after his return from a few days fishing at Ten An Appetizer, Mile. "For years, I have not eaten more than a slice or two of toast and a cup of coffee for breakfast. Well, the second morning I was out there, I ate some ham and eggs, a half-dozen cakes and other good, solid food. Of course I was stiff and sore from the exercise but that didn't interfere with my appetite."

"I married my thirteenth couple the other day," remarked Justice C. L. Pennock yesterday. "Of course, I didn't let the couple know that '13' was connected in any way with their nuptials as I thought it was needless to cause them any misgivings over the unfounded fear that some attach to the alleged hoodoo number. I haven't suffered any bad luck since then, in fact I had some good luck in that I recovered from a severe attack of la grippe which had been bothering me for some time."

The old rivalry between Portland and Seattle is being brought to light again by the Alaska-Yukon-Pacific fair which is to be held in Seattle this summer," remarked a traveling man at the Chandler yesterday.

"In order to help advertise the fair, Seattle traveling men and people generally when away from home have been signing the hotel registers 'A-Y-P,' meaning of course Seattle as the home of the Alaska-Yukon-Pacific exposition. Now the Portlanders, green-eyed with jealousy over the probable success of the fair, declare that 'A-Y-P' is the abbreviation of 'After-Your-Pocketbook.' What Seattle's come-back will be, I can't imagine."
