

AID TEACHING OF FORESTRY

Government to Co-Operate
With Public Schools In
New Branch.

WASHINGTON D. C., June 14.—Teachers throughout the country have been invited by the United States Forester to co-operate with the Forest Service in an effort to obtain more definite knowledge of the characteristics of the most important forest trees of the United States. To do this it will be necessary to obtain a large number of volunteer observers who will collect material on the time of leafing, blossoming, and fruiting of the various kinds of forest trees. In his letter inviting the co-operation of the teachers, Forester Pinchot says:

"Knowledge of this kind is greatly needed and will be of value from the standpoint both of education and of practical forestry. For educational purposes the results obtained for each species, averaged and presented graphically by means of colored charts, will be available to all who are interested in the subject, and particularly to schools. They will form virtual 'tree calendars,' and will be valuable aids to nature study.

"Children can readily be interested in the actual work of obtaining records. This should form an attractive outdoor feature of the school work that should serve to develop the faculty of accurate observation, and at the same time to promote an interest in forestry which may lead to a better appreciation of its aims and methods. It may also prove to be a profitable addition to botany courses for older students.

"A study of this kind will be of great value to practical forestry, since the proper treatment of forests depends partly upon a knowledge of these characteristics of trees. For example, the time of year at which a tree leaves out and blossoms is one of the indications as to whether or not it is frost-hardy in a given region, and the length of time that a tree is in leaf influences the growth it is able to make during the season. Knowledge of the time when seeds of each species ripen in various localities is of great value to those who are collecting seed, since seed often deteriorates or is eaten by squirrels and birds if not gathered and stored as soon as ripe.

"Another result of this study will be a more intimate knowledge of climate as manifested by plant growth, for differences in climate are shown by plant life as well as by instruments, and a preliminary idea can thus be gained as to whether a given region is suited to a valuable tree which it is desired to introduce there. Many such examples could be given, but sufficient has been said to show that the results of these observations will be a real help to practical forestry, in addition to their general interest and educational value. Volunteers will later be supplied with publications and charts containing the information they help to gather, as a return for the services rendered."

On request, the Forest Service will be glad to send forms upon which to record data and a pamphlet containing full instruction as to the nature of the observations and how they are to be made.

"EASTSIDE" is a winner.

MARSHFIELD 6; NORTH BEND 3

Burkhart's Team Takes First
League Game of the Sea-
son Yesterday.

In the first league game of the season at North Bend yesterday, Marshfield defeated North Bend by a score of six to three. The game was a fairly good one from a spectator's standpoint, considering that both organizations were home men. There were many errors on both sides but North Bend's came at more critical stages than Marshfield's.

There was a fair crowd present. Prior to the game, North Bend protested on Monahan playing, claiming he was an imported man. Monahan played with Marshfield four years ago, but has been at Eureka for some time. Recently he returned here to remain and yesterday's was the second game he has played in years.

Manager Burkhart has been negotiating for a battery for the Marshfield team, figuring on limiting his salary list to two men. Today, Troch brothers, one of whom tried out under Casey for catcher in the Northwest League and the other who has been running a store in Vancouver came down to try out with Marshfield.

Owing to numerous shifts in the lineups yesterday, it was practically impossible to keep an accurate box score of the game. Wilson caught for six innings for North Bend but had many passed balls. In the seventh, he went in the box and pitched good ball for three innings. In the same inning, Strickland switched from first to catch, Hull went to second and Olson to first for North Bend. Nichols caught a star game for Marshfield and Thompson twirled fair amateur ball.

In the eighth, Johnson took Cowan's place in right field for Marshfield.

There was only one clean two-bagger during the game and that was Strickland's.

Score and Lineup.
Runs 1 2 3 4 5 6 7 8 9
Marshfield 0 1 0 2 0 3 0 0 6
North Bend 0 0 0 0 0 0 0 0 3
Hits 1 2 3 4 5 6 7 8 9
North Bend 1 1 1 0 1 0 0 1 3
Marshfield 0 1 1 3 1 4 0 0 10

The lineups and the batting order during the major part of the game was as follows:

N. Bend	Marshfield
Wickman 3b	Collins lf
Caffney ss	McKeown cf
Williams cf	Merchant 2b
Wilson c	Monahan 1b
J. Thompson lf	Nichols c
Strickland 1b	McDonald ss
Olson 2b	Thompson p
Brough rf	Cowan rf
Hull p	McCulloch 3b
Umpires—Agnew and Hartman	

COQUILLE IS WINNER.

Defeats Myrtle Point by Score of 7 to 3 Sunday.

MYRTLE POINT, Ore., June 14.—Coquille defeated Myrtle Point here yesterday by a score of seven to three before a large audience. Coquille with its imported men has a strong team but the showing of Myrtle Point's home talent was more than pleasing to the local fans.

STOCKHOLDERS' MEETING.

A meeting of the Stockholders of the People's Co-operative Company will be held Saturday, June 19th at 8 o'clock P. M., at the new location, 170 Broadway. F. S. RIEBE.

INLAND EMPIRE WEEK AT FAIR

Pacific Northwest Will Have
the Boards Beginning June
20 at Seattle.

SEATTLE, Wash., June 14.—Inland Empire week at the Alaska-Yukon Pacific exposition at Seattle will be celebrated commencing Sunday, June 20. Devoted to the interests of the eastern parts of the Washington and Oregon and the state of Idaho, the week will be one of the most important of the exposition period.

Thousands of visitors from the great Inland Empire are planning on seeing the fair next week. During this time they will be the special guests of the exposition and will be shown every honor and courtesy which it is possible to bestow.

On Sunday, the dedication of the Oregon building will be the feature of the day. Impressive services and a reception for the people of Oregon are planned.

Inland Empire week and Spokane week begin in earnest Monday. Excursion from a number of the towns of Eastern Washington are being arranged and the exposition officials are leaving nothing undone to provide a fit welcome for the visitors.

Washington State Day will be Tuesday. At this time the people from all parts of the state are to be gathered to greet the excursionists from the Inland Empire. Union (Oregon) day and Tekoa, (Washington) day are to be held Tuesday. On Thursday the national convention of the American Institute of Banking will begin. Many of the bankers of Eastern Washington and Oregon are taking this opportunity to visit the exposition.

On Wednesday will be the convention of the Grand Chapter of Royal Arch Masons. The annual convention of the Western Washington Christian Missionary Society and Royal Arcanum Day will also be held at this time.

Spokane Day on Friday will be one of the feature days of the exposition. The Spokane County building is being especially decorated and arranged for the reception of the crowd of people from the Inland Empire metropolises.

A day devoted to the interests of the great wheat-growing sections of the Inland Empire is Saturday, which has been turned over to the towns of Davenport and Sprague in Washington.

King County Day and Coal Miners Day will also be held Saturday.

Perhaps the most favorable time at the exposition has been chosen for Inland Empire week. The hot days of the summer have been avoided and the exposition is nevertheless in fine running order.

There is no necessity to hang to a street car strap while the man in front of you steps on your feet and the open window serves as a flue to suck dust into your eyes and mouth, in going to and from the Alaska-Yukon-Pacific exposition.

A long, but quickly accomplished, journey by boat on one of the most famous lakes of a continent noted for its scenic bodies of water, is at the option of every exposition visitor. Numerous and commodious steamboats speed through the laughing waters at all hours of the day and night, and the service is as complete and reliable as the best that may be made the boast of any transportation company in America.

The boats may be taken from Madison, Madrona or Leschl Parks, the terminals of three short carlines upon which the visitor may be certain of getting a seat. These lines go through the very heart of the residence districts, and it is worth the time to see what a beautiful city has been built here between an arm of the sea and the great fresh water lake some three miles to the east.

Lake Washington is a mirror of blue set in a fringe of green. Towering firs show their mighty heads above the willow and maple-lined shores, and the houses of the rich with their extensive green lawns and garden bowers make a checkerboard of nature and culture to please the eye. To the east undulate hills of green and beyond rise the snow-capped Cascade range, with Mount Rainier, 15,000 feet high, flanking to the south with a great dome of striking magnificence.

Cool, fast, and beautiful, such a ride is just the appetizer for the feast that awaits the visitor at the exposition's gates.

WELL KNOWN PIONEER DEAD

Alfred Butler Succumbed to
Cancer at San Francisco
Last Week.

Word was received here today that Alfred Butler, one of the best known pioneers of Coos Bay, died at San Francisco last Tuesday of cancer. He was about eighty-three years old and had made his home at San Francisco for twelve or fourteen years.

Mr. Butler came to Coos Bay in the early 50's and with Capt. A. M. Simpson and his brother started the Simpson Lumber Company's business here. He followed lumbering for a long time, having had charge particularly of the logging operations.

Twelve or fourteen years ago, he retired from active business and moved to San Francisco.

John Butler, city recorder, is a nephew of the deceased and Chas. Butler of Coquille, is a cousin.

DEATH IN LINIMENT BANDAGE.

GOSHEN, Ind., June 14.—Harry Rowell, 30 years old, a blacksmith, was fatally burned when he held a liniment bandage on a sprained wrist too close to a gas jet.

Are You Well Armed?

In warfare, to meet a moderately-armed enemy, your own force equipped with obsolete weapons, would be worse than folly. Even the argument that you could not AFFORD modern arms or weapons would not excuse you. The enemy makes you pay for HIS. So it is in business. You must advertise in the most modern and aggressive ways or get out of the fight entirely.
