OH, THE COMFORT OF IT

IRON AND IRON AND IRON—AND STILL YOU ARE NOT TIRED
This is literally true and the reason is that the **ELECTRIC FLAT IRON** does away with all the hard work, trouble and bother of ironing day. You simply get your iron from the shelf, attach it to the lamp socket, put in the switch plug and it begins to heat immediately. Then you iron. And, you keep on ironing until you have finished. It is as easy as that.

The Electric Flat Iron

NOT EXPENSIVE TO BUY—ECONOMICAL TO USE.

This **ELECTRIC IRON** is really the cheapest luxury you can indulge in. It will save all the running back and forth—it will save heating up the room—it will save the fussing and bother over fires—it will save the tired feet and aching back—it will save the flushed face, and the suppressed nervousness of old fashioned ironing days.
