DREAMS HE IS IN FLYING MACHINE AND SPRAINS ANKLE

LOS ANGELES, July 20.—While dreaming that he was navigating an aeroplane, J. H. Crocker, a car repairer, walked out of the second story of the window of his home here and sprained his ankle in a fall to the ground. He missed death probably because his muscles were relaxed. This is the second time this has happened. I expect to be able to fly some day," said Crocker today. "But the stunt of flying in my sleep and tumbling out of the window is no joke. I guess I will strap myself in bed, or I will wake up dead some day."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for it of testimonials.
