Slay More Than 100 In One Day.

Returns From San Francisco After Securing Consent of Non-Resident Property Holders.

The trip was made in the comfortable time of less than seven hours. Mr. Blake said today that when it is considered that the distance is 65 miles, and 20 miles of this over a mountainous country, where less than ten miles an hour can be made, it will be readily seen that the rest of the road, which permits of from 15 to 20 miles an hour without any discomfort to the passengers, is in very fine condition.

Mr. Blake also reports that progress has been made in securing the consent of property owners for his street-car franchise, as the result of his trip to San Francisco.

Mrs. Blake and son did not return with Mr. Blake but went to Spokane where they will visit with Mrs. Blake's parents.
