Anderson left today for Coquille to attend an adjourned meeting of the Coos County Commissioners which is being held to determine a Bandon road improvement. The commissioners will probably go to Bandon tomorrow to inspect some roads in that vicinity.

Catch Young Shark.—Andrew Hansen and Carl Jensen while fishing for salmon in the lower bay this morning caught a young shark which is declared to be of the real man-eating species, one that is seldom found this far north. Its body was about four feet long and it attracted much attention when brought up town.

On Hunting Trip.—Wm. Cox, Ralph Matson, Ben Chandler and Engineer "Jim" Boone left this morning for the Middle Fork country where they will hunt bear and big game for a few weeks. They expect to be gone about two weeks and Chas. Hickox insists that they took supplies enough along to take care of a big railway construction gang for a month.

Elks Meet.—Marshfield lodge of Elks will spread the fame of Coos Bay along the coast from Seattle to Los Angeles according to action taken at last night's regular meeting authorizing the invitation committee to invite all lodges in this jurisdiction to the Christening of the baby lodge to be held in Marshfield Tuesday evening August 31. This action and the receipt of a large number of applications for membership constituted the chief business of the evening.

Son Is Born.—Shin Sing, a well-known Coos Bay Chinaman who is arranging to open a restaurant in the Gow Why building on Commercial avenue, is rejoicing over the birth of a son today. His almond eye beamed with smiles when the physician told him the infant was a boy and he exclaimed "Allee light. Me pay you for heap big boy. Girl, no payee you." Chin was greatly disappointed about a year ago when the stork brought him a daughter.

Fish Growing.—J. V. Nye, the well-known rancher of North Inlet was a Marshfield visitor today. He reports that fish hawks played sad havoc with the trout which were placed in Beale's lake about four years ago by the government. Mr. Nye has conducted an aggressive campaign of extermination against the hawks and recently the fish have been more than holding their own. While the fishing is rather poor he reports an occasional catch that will weigh 2½ pounds. He thinks that by another season the supply will be more plentiful.
