That Lame Back Means Kidney Disease

And to Relieve the Lame and Aching Back, You Must First Relieve the Kidneys

There is no question about that at all—for the lame and aching back is caused by a diseased condition of the kidneys and bladder. It is only common sense, any way—that you must cure a condition by removing the cause of the condition. And lame and aching back are not by any means the only symptoms of derangement of the kidneys and bladder. There are a multitude of well-known and unmistakable indications of a more or less dangerous condition. Some of these are, for instance: Extreme and unnatural lassitude and weariness, nervous irritability, heart irregularity, "nerves on edge," sleeplessness and inability to secure rest, scalding sensation and sediment in the urine, inflammation of the bladder and passages, etc.

DeWitt's Kidney and Bladder Pills are an exceptionally meritorious remedy for any and all affections or diseased conditions of these organs. These Pills operate directly and promptly—and their beneficial results are at once felt.

They regulate, purify, and effectually heal and restore the kidneys, bladder and liver, to perfect and healthy condition—even in some of the most advanced cases.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid.

Challenge Elks.—The Eagles have decided to organize a ball team and challenge the Elks for a game here. Last year, the Elks defeated the Eagles in the big benefit game and the latter want a chance to regain their lost honors. The challenge will probably be accepted and the game pulled off the latter part of next month.

Build Road.—W. H. Noble will leave Monday for his Ten Mile ranch near Templeton where he will make extensive improvements during the summer. He also has the contract for building a mile and a half of county road and will put a force of men to work on it next week. He will spend the next three months in that section.

Postpone Meeting.—A meeting of the executive committee of the Young Men's Commercial Club was to have been held last evening to make arrangements for the entertainment of the delegates attending the Oregon-Idaho Development Congress here next month but owing to so many of the members being out of the city, a quorum could not be obtained. Another meeting will be called soon.

Work at Gardiner.—After six weeks of continuous work at Gardiner, A. B. Sergeant and Chas. Miller have returned. While there Mr. Sergeant built for Capt. Bergman a pressed brick front fire place, and also a concrete sidewalk around his dwelling. Also for W. F. Gewett about 200 feet concrete retaining work, which answers a fence wall. In addition to the above a concrete foundation for a new house which Mr. Jewett has in course of construction. Mr. Warren Reed had also a brick furnace placed in his slaughter house.

Horses in Fine Shape.—F. P. Norton yesterday received a letter from Dan Starr, who has charge of his racers which are now being trained at Albany for the Umpqua Valley circuit. Mr. Starr says that the track is one of the best for training purposes that he has struck in this section. A number of horses owned in Albany are being trained there

but F. P. Norton's Zomoak and Belle N and Sam Marsden's Mack N are the only outside horses there. The other day Belle N was worked a mile in 2:18 and Zomoak was worked a mile in 2:22 1/2.

Booklet Is Out.—The first of the Coos County booklets for distribution at the Seattle fair were completed today and a consignment will be immediately shipped to Seattle by Henry Sengstacken of the Coos County Chamber of Commerce. The booklets are profusely illustrated and contain much important data and information regarding all parts of Coos county, having been compiled in an interesting way by Jack Guyton. The pamphlets are attractive. Roy Lawhorn has a neat cover design.

JUDGE COKE GOES TO MEDFORD TO TRY CASE

RESULT OF WATWORKS LITIGATION THERE WILL BE IMPOR-TION TO OREGON CITIES — POINTS INVOLVED.

Judge Coke left for Medford today by automobile. He goes to that city to hold a special term of court at which the question is to be tried out as to what the value of certain land is which the city has taken as a part of the right of way necessary for its new water system. A jury will be empanelled to assess the damages on about two miles of the right of way which the owner insists he should have twenty thousand dollars for, but which the city does not want to pay more than one-tenth of that price on. It appears that the city is in such need of good water that it must have it at any cost and this feature is, perhaps, an important one in influencing the demand of the owner.

Medford has been cursed with bad water for some time and the loss of life from typhoid fever due to its water has at last startled its citizens to such an extent that they have voted \$300,000 bonds for a new system and have already negotiated the bonds and are preparing to install a system as good as any in the state outside of Portland.

NORTH BEND SCHOOLS WILL OPEN SEPT. 13

Contracts Awarded For Furniture And Fixtures For New High School Building Yesterday Afternoon

At a meeting of the North Bend school board yesterday afternoon, contracts for furnishing the new school house were awarded. It was decided to have school open September 13. Superintendent Raab announced that everything would be in readiness by that date.

G. E. Mickey of North Bend, and the Webber Company of San Francisco, secured the contract for the furniture. The Federal Steel Lock Company of Chicago secured the contract for the lockers.

CAPT. MERRIMAN, a former master of many vessels that sailed into Coos Bay but now located in Eureka, is in the city visiting his many friends.

Your flour is probably giving you trouble. With the scarcity of wheat, this is not surprising. THE SPERRY FLOUR COMPANY anticipated all this and have stocks of Bluestem wheat to last the balance of the year.
