

Columbia  
Records

## YOU PROVE IT!

An invitation to all  
owners of cylinder machines—  
Columbia and others.

We could argue the quality of Columbia Indestructible Cylinder Records until a year from now—but what good would it do if you could not prove it for yourself by coming into our store and *seeing and hearing* it? We could print a whole newspaper every day about the special and original Columbia processes of manufacture—and get nowhere at all if the Records did not bear the evidence.

### COLUMBIA INDESTRUCTIBLE CYLINDER RECORDS

won't break, no matter how roughly they are used, they won't wear out, no matter how often they are played. Moreover, their tone is far purer, clearer, more brilliant than that of any other cylinder record made. Don't merely take our word for it—come inside our store and listen. Cost 35 cents!

## Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect Indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

Council Tonight.—The Marshfield city council will meet this evening to take up a number of matters.

Move In October.—The Marshfield Aerie of Eagles will move into their new home on South Second street early in October. The finishing work on the elegant new building is now underway, the Coos Bay Wiring Company being given the wiring contract and Wiley & Schroeder the plumbing contract.

IS Married.—The following announcement of the marriage of Prof. E. D. Ressler who recently spent some time in Coos county and attended the teachers' institute at Coquille will be of interest to his friends here: "E. D. Ressler, formerly president of the Monmouth Normal school, was married to Mrs. May B. Babbett of Monmouth, in Corvallis, Thursday. The Rev. R. N. Bell officiated. Mr. and Mrs. Ressler will make their home at Corvallis, Mr. Ressler being a member of the faculty of the O. A. C."

J. B. MILNE left today for Nevada where he will spend considerable time.

DR. J. T. McCORMAC will break camp at his summer home on South Coos River Thursday.

F. M. FRIEDBERG and family will return Saturday from their summer home on South Coos River.

WANTED—Girl for general housework—Apply "A. B." Times office.

WANTED—Girl for general housework.—Mrs. A. O. Rogers.

### COOS COUNTY'S SCHOOLS LEAD

State Superintendent Ackerman Pays High Tribute to Educational Work Here.

SALEM, Ore., Aug. 31.—The Oregon Statesman prints the following:

"Superintendent of public instruction, J. H. Ackerman, who has just returned from Coquille, Coos county, where he attended the teachers' institute and board of directors meeting reports that the schools of Coos county are in a very flourishing condition.

"Superintendent Ackerman says that Coos county stands at the head of the state in the manner of advancement of her school system and that outside of Portland the high schools of that county lead the state.

"Marshfield, North Bend and Bandon, said Mr. Ackerman, are finely equipped in the way of high school buildings and equipment. From the smallest detail to the largest, these cities have provided for the comfort and convenience of the teacher and pupil. At Marshfield and North Bend a department for cooking and sewing has been installed and at North Bend an immense swimming tank is in operation and during the school term daily lessons in this art are taught the scholars. The ventilation of these buildings is about perfect. A system is used whereby the temperature of every room is automatically kept at a given temperature and an electric clock is in operation which gives out the time for each study hour in each room irrespective of the difference in the schedule of the different rooms.

"The coat room difficulty has been solved at Marshfield. The outside wearing apparel of the student is hung in the school room on the side wall and on the opening of school a sliding door covers this space and a heating arrangement is used whereby in wet weather the wraps are subject to a drying process which is ventilated and the odors of vapor are carried off.

"The half yearly report of the schools of the state will soon be ready and will be published in the Statesman. The work of the past term has been very gratifying to Superintendent Ackerman and he looks for an increased interest in school matters the coming year."

Within the last two decades there have been only two years when the wheat crop of France did not cover the home demand.
