### LITTLE TALKS ABOUT TOWN

A GRIST OF COOS BAY GOS-SIP GATHERED HERE AND THERE ABOUT THINGS OF PASSING INTEREST.

The Great Salt Lake supports only one kind of animal life, according to a traveling man at the Chandler today, and this "animal" Shrimp Only is known as the salt Living Thing shrimp. It is only an inch long, is almost transparent and it takes about a million of them to form an adjunct to a meal.

"Salt Lake is, and contains as much as 60 per cent salt. The shrimp is therefore the only form of life that can stand so much saline matter, and all other forms of fish perish as soon as introduced to its depths.

"The water is so strong that it bears up bodies that would readily sink in sea water or in fresh. Boats have to be specially constructed in order to slide over the surface, as they will not draw water or sit down in the fluid as they would in other lakes, or in the sea. Swimmers have no difficulty in keeping afloat, but woe to him who gets a mouthful of the brine, as he will at once become stiffed, and if help is not at hand he will soon pass in his checks."

This traveler says the lake is of no value for commerce, but for the manufacture of salt it is all right. Salt is made in large quantities by diving alongside the lake and letting in a quantity of the brine, which is then evaporated by the sun, leaving a large amount of salt to be shoveled on board of freight cars for distant points.

MRS. STANFIELD ARNOLD of North Bend, was a Marshfield shopper today.

MRS. HILLIS SHORT and children have returned to Ten Mile after a shirt visit here.

**Dance Tonight.**—A dancing party will be given at the I. O. O. F. Hall this evening by a number of young men as a farewell to Miss Ramona Radcliffe who will leave tomorrow for her home in Oakland.

### TO OPEN ACADEMY.

**Gravel Ford School's Officers For Coming Year.**

The Gravel Ford Academy is this week issuing its tenth annual catalogue for the school year 1909-1910. Last year was a very prosperous one for the school and another as good or better is anticipated for the coming year. A course in vocal and instrumental music has been added to the curriculum and other improvements made that will add to the value of the course and interest of the pupils. The trustees this year are: W. H. Bunch, chairman; E. A. Merceen, secretary; O. S. Coleman, F. S. Bunch and A. F. Kirshman. The members of the faculty are: Frank S. Bunch, principal; Albert Carey, M. D., assistant principal; Mrs. Albert Carey, matron; Miss Minnie Comer. The school year will close April 29. The Academy is one of a series of schools established by the Seventh Day Adventists, but admission is not confined to members of this denomination or their children.—Myrtle Point Enterprise.

There are at present in India 257 medical missionaries, of whom 121 are men and 136 missionary nurses.

**And Again Summer.**  
Knee deep the cow stands in the pond  
And chews her grassy quid.  
The katydid is overfond  
Of telling that she did.  
The cricket sings beyond the gate  
And fondly woos her cheerful mate.

The tiger lilies nod their heads  
And flame-like banners, curl  
And show a lot of browns and reds  
To please the summer girl.  
The summer girl is smooth as silk  
And drinks a lot of buttermilk.

Old summer has her dear delights  
And eke her sorrows sore.  
The skeeters pierce our skins o' nights,  
Hay fever makes us roar,  
But still we love her banner dear  
And mourn her going every year.

Good groceries and fresh fruits and vegetables at the most reasonable prices. Give us a trial order.
