

Women Suffer Agonies from Diseased Kidneys

And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organisms—affording the most prompt relief and permanent benefit.

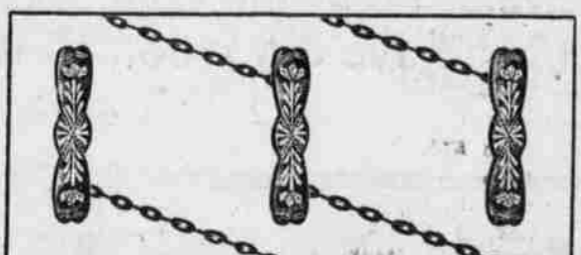

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail post-paid. Do it to-day.

Maximum 73
Minimum 45
At 4:43 p. m. 67
Precipitation none
Wind, Northwest; clear.

Builds Addition.—Guy Lattin is building an addition to the Lattin Boarding house on South Second street.

Improve Building.—D. Y. Stafford is having the Montgomery building on Front street, formerly occupied by the telephone company, remodelled and improved for the confectionery store and factory which he will open there shortly.

Can't Come.—Dr. Andrew C. Smith, who was expected here this fall for a week or so hunting trip, has written that unexpected developments there have compelled him to postpone his visit. He was to have been a guest of Dr. J. T. McCormac.

Dredge Oregon Leaves.—The tug Richard Holyoke with the dredge Oregon in tow, crossed out shortly after 2 o'clock this afternoon. The bar was perfectly smooth and the weather outside looked good, a south-westerly breeze favoring her voyage up the coast.

Chicken Webfoot.—M. A. Sweetman says that one of the strangest freaks he ever ran across was discovered at his home the other day. It was a webfoot chicken. The chicken lived to be five days old but the web between the toes of its pedistals was as perfect as on any duck.

Young Child Dies.—Word was received here today of the death of Dorothy, the five months old daughter of Mr. and Mrs. Jas. Wall of South Broadway at Portland yesterday. Mrs. Wall and the children have been visiting her parents in Portland. The little one and her twin have not been strong and it is presumed that the intense heat caused her death. The body will be brought here on the Alliance for burial.

WORKMEN SCARCE ON COOS BAY AT PRESENT

Local Mills and Contractors Could Use Fifty Or So More Men Now If They Had Them.

The shortage of workmen is still causing considerable trouble for the mills and contractors on the Bay. Although a number of workmen have been brought here recently, several large employers are still short of help. It was stated today that the North Bend Lumber Company is short ten men, the Simpson Lumber Company fifteen men, the North Bend Box Factory ten men and the Smith-Powers Logging Company and Contractor McLain and the Coos Bay Paving and Construction Company require more help. An effort will be made this week to bring in a number of workmen from Portland.

The finishing of the Eagles new building on South Second street is being delayed by the scarcity of workmen, Al Hall, who has been supervising the construction, says it is impossible to secure laborers and plasterers. He may have to send to Portland or San Francisco for them.

ALONG THE WATERFRONT

The Czarina will sail from San Francisco for Coos Bay Friday.

The Nann Smith is due in Friday or Saturday from San Francisco and Bay Point.

The Gerald C brought in a big shipment of fish from Rogue river. It will be placed in cold storage for a while.

The schooner Alumna was towed up Isthmus Inlet yesterday to fresh water where she will remain for a while.

NOW THE DR. COOK COCKTAIL

Ice, of Course, is One of the Ingredients of the Drink.

NEW YORK, Sept. 15.—Ingredients of the Cook cocktail were welcomed in Broadway, and those who sipped the new drink—declare it an Arctic nectar of real delight. These are the details of the concoction: "Juice of one lemon, a pony of gin, a tablespoonful of Maraschino, white of one egg, mix in a Fifth Avenue tumbler and fill with ice."

Two of these are declared to be a sufficiency.

The originator of this concoction tells how one can realize the "acme of bliss" by absorbing the new drink, thus:

"Quietude, while not essential, is desirable. Mix the drink in the order named. Use a straw and sip—do not drink. A good cigar between the first and second glass will aid materially in assimilation."

MARCEY HAD A CLOSE CALL

Teamster Injured in C. A. Smith Retail Yards Yesterday Getting Along Well.

Ed. Marcey, the teamster who was hurt yesterday afternoon at the C. A. Smith Lumber Company's retail yards, was reported this afternoon getting along as well as could be expected. Owing to the many injuries to his head, it was feared that complications may yet set in.

Marcey's injuries consist of a broken cheek bone and severe bruises around his head and face. It is not believed his skull was injured as he has been conscious all the time.

Marcey has been hauling cars of lumber from the mill on the light track. After crossing the top of the incline of the Broadway bridge, it is customary to slip the chain and let the cars run down on the gravity line. Somehow, the ring didn't slip off the hook on Marcey's car and he walked along with the car, leaning in front of it trying to loosen the ring. He didn't realize he was so close to another car and before he had unfastened the chain, he was caught between the cars. Had it not been for some short lumber where his head was caught and also for the fact that the car was running slowly, his head would have been crushed in a horrible condition.

Marcey lives at South Marshfield Heights, near E. D. McArthur, where he had just finished a new home. He has a wife and three children.

who was to have left on the Alliance for Portland, was unable to go owing to the Alliance being unable to affect a landing at Empire, the dredge Oregon and tug Richard Holyoke taking up the dock space. She leaves on the Eureka.

DAVE REES and family leave today for a short outing at Ten Mile.

W. L. BASSETT of Minneapolis, is expected here on the Nann Smith this week to visit his son, J. Bassett, who is employed at the C. A. Smith mill.

PENS LINES TO WIZARD

Capt. Macgenn Writes Tribute to E. H. Harriman.

The Portland Telegram says: Captain T. J. Macgenn of the steamship Breakwater, known as the "skipper poet" from Panama to Cape Nome, has penned the following tribute to the memory of E. H. Harriman:

He had the falcon's piercing gaze,
And the brow of Jove himself;
There hid behind was the prophet's mind,
And store of natural wealth.

The Breakwater arrived from Coos Bay yesterday. While off Globe she stopped for five minutes at 12:30 o'clock, and in measured tones her bell was tolled 61 times, each stroke representing a year in the life of the dead financier. Following this the captain delivered a short address in which he extolled the character of Harriman and compared him with Alexander the Great. The Breakwater will go to the plant of the Willamette Iron & Steel Works to have minor repairs made to the shaft alley. It is announced that she will sail on schedule Wednesday night.
