PITTSBURG DEFEATS DETROIT BY SCORE OF EIGHT TO NOTHING

Carries Off World's Championship In Shutout Game Today.

DONOVAN AND MULLIN ARE BATTED HARD

Adams Has Detroit at His Mercy With Perfect Support.

(By Associated Press.) DETROIT, Mich., Oct. 16.—By a score of eight to nothing, Pittsburg today defeated Detroit and carried off the World's baseball championship for 1909.

The game was very much one-sided, Adams with perfect support behind him having Detroit at his mercy. Donovan started to twirl for Detroit but was very wild and had to be replaced by Mullin. While Detroit got six hits, only two less than Pittsburg, they came at inopportune times and were well scattered while Pittsburg bunched her hits at needed times.

In the first inning, Byrne and Moriarity collided and for a time it was feared that both were out of the game for good. Moriarity recovered sufficiently to resume playing but Byrne sustained a badly sprained ankle.

The weather was cold and the latter part of the game was played in a drizzling rain but there was an immense crowd in attendance.

The lineups on the start today were as follows:

SIMPSON STILL AT HELM.

Vigorous Old Man Directs Affairs of Columbia Mills.

ASTORIA, Ore., Oct. 16.—The Columbia Mills at Knappton have resumed operations after a shut-down for several weeks and are cutting cargoes for vessels which will soon arrive. This is in accordance with orders received a short time ago from Captain Simpson, who, notwithstanding his advanced age, still retains his position as president of the Simpson Lumber Company and directs the management of its vast interests.

A deal for the purchase of the company's Knappton plant by local parties having extensive logging interests on the north side of the Columbia river has been in progress for some time, and is still pending, but whether or not it will be consummated is not known. Captain Simpson is expected to make one of his customary visits to this section within the coming few weeks and the matter will probably be definitely settled.

FOUR DECLARE COOK FAKIR

Additional Affidavits Concerning Mt. McKinley Trip Are Printed.

(By Associated Press.) NEW YORK, Oct. 16.—Four more affidavits were published today in the Globe in connection with the investigation of Dr. Cook's expedition to Mount McKinley. Three members of Cook's party, Fred Printz, the guide; Walter Miller, the photographer, and Samuel Berceer. Their testimony explains Cook and Barrill were alone together during the period Cook claims to have reached the summit. All three say Barrill assured them later that Cook's story was false. A fourth affidavit of Dr. John E. Shore, a physician of Leavenworth, Kansas, tells of a conversation with Oscar F. Blankenship of the United States Forestry Service, in which Blankenship said it was impossible for Cook to have reached the summit in the short time Cook and Barrill were absent from camp. Blankenship was stationed near Mount McKinley at the time of Cook's expedition.

BURIED IN SILO.

Captain W. E. Rackleff, Old Pioneer, Stricken While at Work.

The Myrtle Point Enterprise says: "Capt. W. E. Rackleff, an early pioneer of Coos county, was stricken with paralysis while helping fill the silo with corn, at his home north of town, Tuesday morning. Mr. Rackleff was working in the silo, disposing of the chopped corn as it came in. Frank Tripp, who was helping in the work, called to Mr. Rackleff and receiving no response he went into the silo to investigate and found that the old gentleman had been almost covered with the chopped feed, only one of his hands sticking out of the heap of fodder. With the help of the Rackleff boys the stricken man was taken from the silo and carried to the house. Dr. Stemmler was summoned and an examination made that proved the old gentleman to be in a serious condition. His right side and bowels were found to be paralyzed and his left side was also affected. Mr. Rackleff's condition was very serious yesterday and at the latest accounts it was thought that he could not live through the day. He has not been able to speak since he was first stricken and it is believed that he has been unconscious most of the time. He is past seventy years of age and he had not been feeling well for some time. His family attempted to dissuade him from helping at the silo work, but he would not give up."

Heads of the World's Two Greatest Republics Meet On the Rio Grande.

NO OVERT ACT MARS THE MEETING

Diaz Comes to El Paso and Taft Crosses River to Juarez.

(By Associated Press.) EL PASO, Tex., Oct. 16.—With cannon roaring a sequence of salutes, with soldiers everywhere and pomp ceremony seldom if ever before witnessed in this country, President Taft of the United States, and Porfirio Diaz of the Republic of Mexico, met here today and exchanged formal greetings, good will and friendship. The meeting was behind closed doors in the directors' room of the Chamber of Commerce and only two assistant secretaries to Taft were there to report the addresses of executives. After having received Diaz on American soil, Taft, himself, crossed the international border and returned the call of President Diaz at the Customs House in Ciudad de Juarez.

Tonight, he will cross into Mexican territory a second time and be the guest of President Diaz at Juarez. Vague rumors of a possible demonstration attending the meeting of the two presidents caused the authorities, both civil and military, to exercise extra precautions on both sides of the line to protect the executives. While President Taft and President Diaz were in the directors' room, the members of their parties were formally introduced. The meeting of the presidents was intended to be simple and informal in recognition of the friendly relations of the two countries.

Journeying to and fro, the presidents and members of their parties were attended by a military display which was impressive of authority. President Taft was escorted by cavalry, artillery and infantry while Diaz was attended by three thousand Mexican soldiers. Taft arrived at 9 a. m. and had breakfast at the St. Regis hotel as the guest of the El Paso Chamber of Commerce. Following the review of school children, Taft proceeded to the Chamber of Commerce to meet Diaz whose approach was greeted by a salute of twenty-one guns fired by American warriors. He was met at the border by General J. Franklin Bell, chief of staff of the United States army, Brigadier General Meyer and Governor Campbell of Texas.

After the meeting had occurred and a light luncheon served, as Diaz withdrew from American territory, a departing salute of 21 guns was fired. Then came Taft's visit to Mexican soil and when he alighted from his carriage on the Mexican side of the line, it was the second time in history of the United States that a president of the United States had left its borders. Roosevelt set the precedent when attending a dinner given by the President of Panama on Panama territory. Taft's only military attendant was Captain Butt, his aide. When the simple ceremonies were over, Taft returned to the United States territory to head a parade five miles long, concluding at Carnegie square where he reviewed the parade and made a speech.
