The Gambling Craze.

â

å

Illinois courts have decided that playing for a prize, toward the cost of which each player has contributed, is gambling. There are thousands of gambling mothers. They congregate in halls and private houses to contest for a prize pur chased out of the "jack pot" to which all have contributed. Therefore, at least in the state of Illinois. they are gamblers and amenable to the laws against gambling. But suppose the prize is furnished by the hostess, does the bridge whist craze,

which has spread all over the United States have no pernicious influence? Are not children and homes neglected, and boys led to think there is no harm in betting on horse racing, pooling, and gambling with cards and dice? There is an intoxication without wine. Bridge whist is such an intoxicant. It consumes days and nights or valuable time. It enervates all the higher powers of women and brings mothers into contempt in their own families.

Investigation shows that the one ione legal saloon in Tennessee, per-

ched on the Cumberland mountains TO PATRONIZE, SHE KNOWS four miles from a school house and YOUR LINEN OUGHT TO more than that from anywhere, stands on land owned by Col. A. M. FRAYED COLLARS, CUFFS, AND Shook, a staunch stave-wide prohibi-SHIRT-BANDS, SHE KNOWS THAT tion. It appears that Colonel Shook YOU ARE GETTING POOR WORK, had leased the land to a man near McMinnville, for pasturage purposes, and he subleased it to Conger, who opened the saloon. It was a huge WIVES WHO WILL GUARANTEE joke on Colonel Shook, and a great surprise to find the much talked of saloon on his property. It is be-LESSLY WHITE AND CLEAN, AND Heved that the sublease is void, as IN THE BEST OF CONDITION the original lease stipulates that the land is to be used for pasturage purposes. If Conger does not volun-

tarily close up his place ejectment proceedings will be begun, and his saloon obliterated, there will be no place in Tennessee where liquor.can be sold without violating the prohibition law, as no other spot can be found four miles from a school

house.

WHY HAY IS GRADED LOW.

The rules of the National Hay Association recognizes 23 grades of hay, which seem to fall into 5 classes: Timothy, clover, mixed timothy and clover, wild grasses, and alfalfa. Choice timothy hay must be sound, properly cured, of bright natural color, not mixed with more than one-twentleth of other grasses, and well baled. Lower grades of

Clover hay has two grades. grade. No. 1 and No. 2, No. 1 clover must be medium clover, sound, properly cured, not mixed with more than one-twentieth of other grasses and well baled. Choice alfalfa hay, must be reasonably fine leafy alfalfa of bright green color, baled. Other grades of alfalfa are Nos. 1, 2 and 3, and "no grade." These rules are

used by most cities that have official inspection.

A large percentage of the timothy on the market is graded below No. 1. The reasons are that many meadows are cut for years, until they become weedy and mixed with other grasses, and that the hay is often the cut too late, so that it loses. bright natural color and palatability. If the farmer would send to market nothing but what the feeder considers good he would get a higher price. It might be necessary in

some cases to educate the country

buyer also. Timothy has the lead, especially among city feeders, because it is not only nutritious but palatable and non-laxative, and the horse is not likely to overload. Nevertheless, other kinds of hay would often prove better for the feeder. Alfalfa, for in- cold so distressing that it interfered stance, has high muscle-building with my business, I had many of the qualities and is especially valuable symptoms of hay fever, and a docfor draft horses. It is highly re- tor's prescription did not reach my overload. Doubtless the feeder will which seemed only to aggravate it. lished, however, and the horse may in time learn that hay from legumes has great value when properly used. Meantime the farmer is obliged to

his rotation in order to maintain the fertility of his land. In regard to good rotations the U.S. department

In any case, the farmer who sells hay should seek to produce the highest grade by keeping his meadows pure and by proper methods of cuting, curing, and stacking.

CURED HAY FEVER AND SUMMER COLD

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer case, and I took several medicines Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used include clover and other legumes in Foley's Honey and Tar with the same success."-RED CROSS Pharmacy, (John Preuss, Prop.)
