Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.
There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.
Use Kodol and prevent Nervous Dyspepsia.
Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.
When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

We knew what Kodol would do before ever the first bottle was sold. If we did not know just what it will do, we would not guarantee it the way we do.
It is easy for you to prove Kodol—the next (or the first) time you have an attack of indigestion. And you will certainly be surprised at the results. It is perfectly harmless.
There can be no harm in trying something that may do you a great deal of good—when it costs you nothing if it doesn't.
Our Guarantee
Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. The large bottle contains 2 1/2 times as much as the fifty-cent bottle.
Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

The building is now ready for the installation of furniture. SONG BIRDS SCARCE.

It has been noted that the robins, meadow larks, killdeers, and other birds have not been as numerous in evidence here this winter as formerly. It is presumed that the severity of the weather has had a great deal to do with it, as they have seemed to appear more numerous during the past several days when the sun has shown out. However, there is not a doubt but that these birds, many of them under the laws protection, have been extensively slaughtered and the increase in insect pests can no doubt be attributed to that fact in a large measure.—Myrtle Point Enterprise.

A Dayton, O., clergyman permits the men to smoke at the Sunday afternoon services. If this scheme works pretty well, he may permit the women to chew gum at the evening performance.
