HIGH SCHOOL NEWS.

The Athletic Association of the Marshfield High school, met twice during the week and decided to give up basketball for this year. It was also decided to start in early on track work and devote the time to it. The association expects to make this year's track meet a great success as all the schools are desirous of entering it. It will probably be held earlier this year than it was last in order to give the winning team of this county a chance to go out and complete with other schools.
