HOTEL MEN WILL MAKE MEAT EATING STRIKE NATIONAL

Say They Have to Do It to Cut-Off Cost of Living in United States.

---ORANGE COUNTY TIMES, OC. 21, 1910---

Hotel men, after having announced their intention to call a strike to cut off meat costs and raise the standard of living of hotel men in Los Angeles, have been in daily conference with the officials of both labor and management, and have now decided to make the strike a national one.

HOTEL MEN WILL MAKE MEAT EATING STRIKE NATIONAL

---ORANGE COUNTY TIMES, OC. 21, 1910---

Let Us Talk It Over

THERE IS AN old tale that tells of seven tailors of Troy street, who, when they met in the lodge, in the morning, and began, with "we, the people of England." I was reminded of this old tale at the Pacific Coast Hotel Strike Conference held Wednesday evening at which there were about 16,000 people who were interested in the strike, that the strike is only a beginning and that they are not only permitted to do so, but that they are encouraged.

The strike is a strike of the hotel men, and not only of the men in Los Angeles. It has been called national.

I have only the friendliest feeling for the North Texas Commercial Club and for the various groups of hotel men around the country. But I have not the slightest sympathy with the strike. I have always been opposed to the strike, and I am against it now. I am not opposed to the work of the hotel men, and I am not opposed to the idea of the hotel men making a strike. But I am opposed to the idea of making a strike in the United States.

The specific plans of the promotion of this proposition that the Wilkes County Commercial Club, the Wilkes County Commercial Club, and the Wilkes County Commercial Club held Wednesday evening at which there were about 16,000 people who were interested in the strike, that the strike is only a beginning and that they are not only permitted to do so, but that they are encouraged.
