

ACTS OF VIOLENCE MARK CAR STRIKE IN PHILADELPHIA

Dynamite Charge Placed Under Car In Populous Section of City.

MANY REPORTS OF OTHER TROUBLES

Company Claims Sufficient Men For Work If They Had Protection.

(By Associated Press.) PHILADELPHIA, Pa., Feb. 21.—Many acts of violence characterized the strike of the street car employees today. In a serious riot at fifth street and Lehigh avenue, dynamite was exploded under a car and it was broken in half. There was no passengers in it and previous to the dynamiting, the mob ordered the crew off the car. The police arrived quickly with drawn revolvers, subdued the mob and arrested several rioters. Cars were attacked in various parts of the city during morning, especially in the mill district.

(By Associated Press.) PHILADELPHIA, Pa., Feb. 21.—Although street cars are running on all lines today, the system is pretty well tied up. With the exception of a few passengers, most of the people preferred walking to take chances of being hit by bricks or other missiles thrown at the cars. The Philadelphia Rapid Transit Company issued a statement that it only had 600 cars running today although it has men enough to handle 1,200 if policeman were available to protect them. There will be no service after 6 o'clock today except on the subway and elevated lines. Strikers claim that 6,500 men out of about 7,000 are on strike and that the company is running cars with strikebreakers and power house employees. Sensational reports of police having pistol battles with mobs are untrue. Most of the disorder was occasioned by boys. Of one hundred arrests made yesterday, the majority were under 21 years of age. There was bloodshed yesterday, however, four persons being hit by bullets, but they were occasioned by people in crowds firing into the air. One of the amusing sights of the strike was to see men and not a few women going to work on roller skates. Under a proclamation by the mayor, people are not permitted to congregate on the streets.
