OVER ONE HUNDRED THOUGHT KILLED ON TRAINS BY SLIDE

Disaster On Great Northern Near Everett Worse Than First Reported.

THIRTY-FIVE BODIES ARE REPORTED FOUND

Sixty Others Known Buried Underneath Ten Acres of Snow and Land.

(By Associated Press.)

WELLINGTON, Wash., March 3.—Thirty-five bodies of the avalanche victims have been recovered. Sixty are missing whose names are known...

Shortly before two o'clock Tuesday morning when everyone on the two stalled trains were in bed, ten acres of mountain side towering above the trains became detached...

The trains were picked up as though mere trifles and the whole mass piled at the bottom of the ravine several hundred feet below.

One glance at the ruins explains why so many persons are missing and gives no hope that any of those buried is alive.

The few men who are working cannot accomplish much and it would take them months to dig out the cars, but as soon as the road opens, proper equipment will be brought to the scene and the bodies recovered.

Men's meeting next Sunday afternoon. Children's meeting next Friday afternoon.

The sermon in the big tabernacle last night by Rev. Dan Shannon made every one feel dissatisfied with his home city. Altogether it was a meeting of deep feeling. No invitation was given at either last night's meeting or the previous meeting, yet deep conviction rested on all. After the people had started home, two young men came back into the tabernacle and surrendered themselves to the Lord. It was a manly thing to do. These fellows mean business. There were many more who went home with the Shannon arrows hanging out of them. There are men in Marshfield who are so under the conviction of sin that they are afraid to come to the meetings. Some people began to realize last night for the first time in their lives that God's
