

You want to be as well dressed as any other man for Easter. But you don't want to buy clothes for one day. You must know that they will keep their Easter-day shapeliness and smartness for a long time after. Wear is the only test. Make sure of the result of that test by asking for a guarantee. We'll give it to you gladly with our Mill-to-Man clothes, because we're protected by the makers' signed guarantee.

Pork Higher.—Local dealers received word yesterday that ham and bacon had jumped again, the advance being 1 cent per pound. Just where pork is going to stop is a problem, but the sales are falling off and this will probably regulate it.

Noahs Mixed Up.—The "Times" is informed that Messrs J. A. Noah and Ole Noah were confused in the report of the possible death of the former in the Wellington snowslide. Ole Noah, who is employed at Libby, is the former husband of Jessie Pasco referred to in the item. J. A. Noah is thought here to have been a single man.

Frost at Bandon.—Archdeacon Horsfall, who came over from Bandon yesterday reports that there was a quite heavy frost there Wednesday night. He said that ice formed over all the small pools of water. It is not thought that any damage was done as fruit and vegetables are not far enough advanced to be in danger.

Old Miner Dead.—John Somersville, an old miner, died last evening in his room over Ekblad & Sons' hardware store, after a long illness of asthma. He was 69 years old and had resided in this section since 1873, being employed at the Libby mines until a couple of years ago, when he came to Marshfield and since which time he has acted as janitor at Rees & Sneddon's. So far as known, he has no relatives in this country. He was a native of Scotland. One of his last acts was to make the following notation in a little book which was found in his pocket: "I leave all my worldly goods to Gus Johnson, South Bend." He formerly made his home with the Johnson family and the latter has been notified. So far as known, he left no property. The funeral will be held at 2 o'clock Saturday from the undertaking parlors.

SAW EDGES

Are all right for the sawmill, but on collars and cuffs are rough on even a sawmill man. Our collars and cuffs are all edged on a special machine made for the purpose. If you are not a customer of ours, just run your finger around the edge of your "elsewhere" laundered collar or cuff, then send to us and see the difference. We can "show you."

WE ARE ADDING A DRY CLEANING, DYEING AND PRESSING DEPARTMENT, and while all our equipment has not yet arrived, we are prepared to do some work in this line. If you have an old suit too dirty for ordinary process cleaning, send it to us. If you have a garment which has faded, or which you would like changed to another color, send it in and we will tell you what it will cost before doing anything to it, then if you think it is not worth it, the garment will be returned to you.
