TERRESTRIAL SPECULATION.

THE RAPID approach of Halley's comet is calling out a vast amount of startling comment on the natural conditions of our solar system. Some scientists have agreed that at the earth's center the heat is fully 100,000 degrees, whatever that may mean—a heat so great that no solid or liquid can exist; all is gas.

Moralists and fatalists have always argued that the one assurance of the continuous sanity of the race is our instinctive indifference to our real state. Now perhaps the scientists may come forward with the declaration that the one preventative against instant universal suicide is, that like so many gnats swarming around a gas jet, only to be finally consumed in its flames, so the human family is dancing a jig over an infernal cauldron which one of these days may—but why speculate on such trifles as these, when The Booster Club is abroad in the land.

So far we have seen the shirt waist worn upon every occasion except a corpse at a funeral or a bride at her wedding.

If you care to have friends it is a good thing to remember not to storm if the things in this world do not suit you; people hate storms and run away to escape them

EASTSIDE IS A WINNER.

PLAN BANQUET FOR MAY 27

Business Men's Committee Arranges Another Booster Meeting.

The Business Men's Committee of the Marshfield Chamber of Commerce is arranging for another "Get Together" banquet at the Chandler hotel Friday evening, May 27. The affair promises to surpass the previous one.

Besides the local speakers, the committee, which consists of F. S. Dow, W. S. McFarland and L. S. Smith, is endeavoring to secure some prominent outside speakers. The names of the latter will be announced as soon as their acceptances are assured.

Owing to the limited capacity of the dining room at The Chandler, only 110 will be admitted. Tickets for the banquet will be placed on sale at the Chamber of Commerce May 16 and will remain on sale until all are sold. No one will be admitted to the banquet on the night of the event unless they have a ticket.

The object is to revive the booster spirit and secure a more united campaign for a greater and better Coos Bay.

We have the peace envoys, and now we are to have a potato envoy. The department of agriculture has commissioned a prominent Colorado farmer to go to Europe and find out why some countries over there can average 200 bushels of potatoes to the acre, against 80, or 90 bushels in the United States. An easier plan would be to have that envoy come to Coos county. Two hundred bushels are easy in Coos county soil.
