GET MORE WATER.

Coquille Will Add Considerable to Its Supply.

COQUILLE, Ore., June 2. — The city council of Coquille has ordered from Ballard, Washington, 500 feet of conduit pipe to be used in taking in another stream to our water supply. With the improvements being made to the water system it is not probable that any restrictions will be put on the use of water for irrigating yards. There was a little complaint a short time ago about the water being dirty. It is not noticed since the new work is finished on the supply pipes and the reservoirs have been flushed and conditions are greatly improved—in fact, Coquille has a water system that any town might be proud of.

Business Change.—Robert Marsden, Jr., has purchased the interest of his brother, Sam, in the Royal Theatre and will conduct it himself hereafter.

Close Dining Room.—The dining room of the Blanco Hotel has been closed and the place will be continued as a European hotel only, no meals being served.

Flour Declines.—F. S. Dow received notice to-day of another reduction of 40 cents per barrel in the price of flour.

Gets Picture.—Harry Winkler, of the Lockhart & Parson's drug store, has just received a large group photo of the recent convention of California pharmacists. Coos Bay is represented in the front row by Mr. Winkler.

Bad Runaway.—A lively runaway at the C. A. Smith mill created considerable excitement yesterday afternoon. Superintendent Smeaton's children drove to the mill in their pony cart and coming up unexpectedly behind A. H. Powers' pacing mare, frightened the animal so that she broke her fastenings and ran directly over the small cart and ponies. The children escaped most fortunately with nothing worse than the twelve-year-old son being slightly bruised on one arm. The pacer then proceeded to lay out a new track around the mill buildings and broke all world's records. She also broke the buggy into splinters and the pony cart was badly damaged. The mare received a number of bad cuts but no permanent injuries are anticipated. Altogether it was a most fortunate termination of what might have been a very serious accident.

C. A. Moore Estate Pays Dividend.
—A payment of 20 per cent dividend on claims against the estate of C. A. Moore, deceased, has been made this week by order of the court, made and filed on May 27, 1910. The administrator of the estate was ordered to pay the expenses of the administration, the preferred claims and a 20 per cent dividend on the claims received and approved within the six months permitted by law to present claims against the estate. This is not the final payment on these claims. It was hoped to settle the estate up all at one time, but as the administrator had on his hands nearly \$3,000, and it being impossible to sell the real property at that time, it was thought best for the estate to pay a dividend. The real property will be sold as soon as possible, and the additional and final payment made on the claims. The real property belonging to the estate of C. A. Moore is appraised at \$2,100.

LAUNDRY
We launder negligee shirts beautifully. When a man begins to go vestless, the appearance of his summer shirt assumes added importance. We count it worthy of note that we're satisfying some of the most particular dressers on Coos Bay with the negligee shirt laundering which we're turning out, and if we can suit those, we can certainly suit others. Why not test the Coos Bay way, anyhow, and learn how exceptionally good the work can be done? We call for bundles. You needn't bring them.
