(By Associated Press.)

BEVERLY, Mass., August 3.—No statement is forthcoming from official quarters here regarding the meeting between Senator Crane and Ballinger in Minneapolis yesterday. When it was suggested to the White House officers that Crane may have felt called upon in order to bring about party harmony to request Secretary of the Interior Ballinger to resign, the only answer was that Senator Crane would have to be asked about that phase of the matter.

newspapers. It is said Crane's visit was instigated more by certain party leaders, including the secretary to the President, than to the President himself. The President has received many letters suggesting that Ballinger, because of attacks made on him, was proving an embarrassment in making plans for the coming Congressional campaign.

President Taft, having stood by Ballinger through all his troubles and still believing in him, has refused to heed these complaints. They have had their effect on others connected with the administration and the party, however, and it is reported here that certain of these leaders have taken it upon themselves to handle the situation. But Ballinger remains to be reckoned with. He has repeatedly declared he would not resign until directly asked to do so by the President. This, it is declared here, the President will not do.

Following Senator Crane's interview with the President the report spread that it had to do mainly with Ballinger and that trip through the West to survey the general political conditions would be an adjunct to the principal mission. The idea that Crane was to meet and deal with Ballinger was so strongly denied by Secretary Norton that the report finally came to be erroneous and was so treated here until yesterday's meeting in Minneapolis which seemed to throw a different thought on the situation.

(By Associated Press.) SAN FRANCISCO, August 3.—Attorneys A. A. Moore, Stanley Moore and J. J. Barrett, counsel for Patrick Calhoun, president of United Railroads, and accused of bribery, were sentenced to-day by Judge Lawler to five days' imprisonment for contempt of court. Comments made by the attorneys on a statement from the bench during the Calhoun case, which they declared was an attempt on the part of the judge to do dirty politics, led to their arrest and sentence. Judge Lawler had refused to dismiss the charges against Calhoun and was denounced by the attorneys in the courtroom. In an uproar, the attorneys and court officials were shouting at each other, and when it was over the attorneys found they had been sentenced to jail. MANY ATTEND THE INSTITUTE

Interesting Gathering of Teachers Is in Session at North Bend.

The Coos county teachers' institute, which opened at North Bend, will continue for two weeks. The teachers in attendance are now entered on the regular daily work. A morning and an afternoon session will be held every day. Prof. Bunch, the county superintendent of schools, is in charge and the instructors are Prof. Bell and Miss Smith of Portland.

The manner of instructing the teachers is different from anything that has yet been tried in the State. The instructors are carrying on what they call method work. They outline a method for taking up the teaching of a certain study and write out their outlines on the blackboard so that they can be copied by the teachers and preserved in note books. Then there is a general discussion of the subject and questions are answered. The idea is that the county teachers are in this way given a full written outline for taking up all the different studies and have these notes to refer to later and are given a definite plan along which to carry on their work.

A high school department of the institute has been organized. Prof. Grubbs of North Bend has been made the chairman. The purpose is to discuss matters pertaining to the high school work.

On August 9th, and during the institute, there will be held at North Bend the district board convention. This body is made up of one school director from each school district. They will come together to discuss school matters and will also have an opportunity to see the nature of the instruction received by the teachers at the institute.

There is a good attendance at the institute. About eighty per cent of the schools in this county are summer schools. The county superintendent asked the directors to close the schools for two weeks so that the teachers could attend the institute and to give the teachers pay for one week. The law provides that the teacher must have three days' pay to attend an institute, but in this case a whole week is allowed. It is expected to have some out of town lecturers here during the institute, but that is not definite yet.

The following is the list of the teachers who have registered at the institute: Abe Huenergardt, J. S. Grimes, Henry Huenergardt, Inez Lusk, Bertha Wilkins, Carrie Rodine, Elizabeth Kaufman, Effie M. King, Mrs. C. B. Langley, Rose Lillie, Marie T. Maloney, Hazel I. Matthews, Rish'a McDonald, Mary McNamara, Cora L. Miller, Ida B. Mitchell, Viria I. Moody, Lucia Morgan, Ethel Morris, Josephine A. Passengers Become Panic Stricken But All Are Taken Safely Ashore.

SCHOONER JAMES ROLPH GOES ON THE BEACH.

Wrecked Near Point San Pedro But Crew Has Not Yet Abandoned Her.

(By Associated Press.)

SEATTLE, Wash., August 3.—The Puget Sound Navigation Company's steel steamship Chippewa, bound to Seattle from Everett, without passengers, crashed into the small wooden passenger steamship Albion, bound from Seattle for Port Angeles, off West Point, at midnight and almost sliced the wooden boat in two.

Nearly all of the 10 passengers were women. When the crash came they rushed from the stateroom without dressing. Some became hysterical but they were taken on board the Chippewa without mishap and afterward obtained their clothing and baggage.

The two boats were wedged together. Tugs to-day pulled the Albion away and beached her. The Albion's passengers were brought to Seattle, and the Chippewa departed a few hours later on her run to Everett. The collision is believed to have been caused by a misunderstanding of signals.

ANOTHER WRECK.

(By Associated Press.)

POINT SAN PEDRO, Calif., August 3.—Losing her course in a dense fog last night the four-masted schooner James Rolph, bound from San Francisco to Hawaiian ports, went ashore south of Point San Pedro. The vessel is full of water and still afloat. Capt. Olsen and the crew are still aboard and are in no danger, as the sea is calm and it will not be difficult to launch boats if necessary to abandon the vessel.

Capt. Olsen reports little or no hope of saving the schooner. The location is a dangerous one. Tugs are on the scene and will take off the crew if deemed advisable before an effort is made to get the vessel off the beach.
