

ALLEGED GIRL SLAYER MAKES TROUBLE FOR THE OFFICERS

Joseph Wendling Refuses to Leave Train When Ordered To Do So.

SEEMED TO ACT ON ATTORNEY'S ADVICE.

Detective Keeping Secret When Prisoner Will Reach Louisville To-Night.

(By Associated Press.) OLNEY, Ill., August 11.—Joseph Wendling, charged with the murder of Alma Kellner, became refractory and objected to Detective Carney of Louisville taking him from a Baltimore & Ohio train. In the struggle, Wendling kicked a reporter for a Louisville paper, who is following the alleged slayer. The prisoner was handcuffed to Carney at the time. He refused to leave the train, apparently upon the instructions given him by his attorney, J. R. Clements, in an undertone. Clements, who caught the train in St. Louis after Carney had put his prisoner aboard early today, rode in the same car with Wendling. When Carney told Wendling to leave the car, Clements advised his client in an undertone and the struggle ensued. Carney, Col. John M. Whalen and two newspapermen pushed him through the door of the car and onto the station platform. Then Wendling was placed in an auto which went southeast along the Illinois Central tracks. Carney told the station agent he probably would take the Illinois Central train into Kentucky. He said he wanted the time of his arrival in Louisville kept a secret. Clements did not leave the train here.

(By Associated Press.) LOUISVILLE, Ky., August 11.—It is expected if connections can be made at Princeton that Carney will bring Wendling into Louisville on the Southern Railway train, arriving here about 7 o'clock to-night.

MAYOR GAYNOR IS IMPROVING

Physicians Say His Condition To-Day Is More Encouraging Than Yesterday.

(By Associated Press.) NEW YORK, August 11.—Because of alarming rumors regarding the Mayor, Dr. Arlitz at 2 o'clock issued a bulletin stating that the pulse, temperature and respiration remain unchanged since this morning and that everything is satisfactory.

(By Associated Press.) NEW YORK, August 11, 1.45 P. M.—The Mayor's throat this afternoon is being sprayed with antiseptic solutions. The Mayor shows more signs of irritability than hitherto displayed. He expressed a desire that his wife be almost constantly beside him.

(By Associated Press.) NEW YORK, August 11.—Mayor Gaynor passed a comfortable night. He awoke much refreshed and had 100.2 degrees temperature at 7 o'clock this morning. The wound was dressed at 8 o'clock and looked well. The Mayor showed greater strength to-day than at any previous time since the attempted assassination. Not only were the physicians encouraged by the Mayor's condition, but the Mayor's brother, Thomas Gaynor, left for a three days' visit to Baltimore. There will be no further consultation until 8 o'clock to-night. The official morning bulletin showed Gaynor's temperature to be 100.2, pulse 76, respiration 17. Dr. Stewart, who remained all night with Gaynor re-

MAN DROPPED TWENTY FEET

J. W. Catching at Sumner Has Thrilling Experience and Is Injured.

(Special to The Times.) SUMNER, Ore., Aug. 11.—Jerked twenty feet in the air and then dropped suddenly to the ground was the thrilling experience of J. W. Catching yesterday, and he is alive to tell about it and is not as seriously hurt as would be expected. Mr. Catching was putting hay in his barn. He was using a team and a big fork. In some way he got caught in the trip rope and was suddenly pulled up in the air at least twenty feet. By that time he became untangled and fell heavily to the hard ground. No bones were broken, but he was pretty badly bruised and shaken up.

Thrown From Buggy. W. H. Norton and Mrs. L. G. Masters and the latter's baby niece, were in a bad accident yesterday. They were driving in a buggy when the horse became unmanageable and began kicking. The horse tore up the buggy pretty badly and the occupants were thrown out. Mr. Norton whipped the horse so that the animal dashed ahead and the people were saved from being kicked. The horse ran three miles into Sumner. No one was seriously hurt, but Mrs. Masters sustained some severe bruises.

Sumner Notes. James Wallace, who resides in Eastern Oregon, near Baker City, is visiting his niece, Mrs. L. G. Masters. Ray Watson, deputy county clerk, with his family, is spending a vacation at Sumner. The new boat which Matson Brothers are building for Capt. Harris is nearly completed and will be launched in a few days. The engine has arrived and Capt. Harris expects to have his boat ready for the carnival.

ported that the Mayor awoke at the usual hour this morning and appeared refreshed by a comfortable sleep. Not an unfavorable symptom had developed. When the morning bulletin was issued, Dr. Arlitz was very cheerful. He said, "This is the best bulletin yet."

It was learned that all day yesterday the efforts of the physicians were directed to keeping the temperature down, and the fact that this morning the temperature was really the same as yesterday indicates that their efforts were successful. It is generally conceded, however, that to-day is likely to be the most important one in the history of the Mayor's case. Perhaps the chief fear of the medical attendants has been that blood poisoning may develop. The end of a two-day period is commonly allowed for the appearance of any indication. The two sections of the bullet remain imbedded in the Mayor's neck and throat and a possibility of danger from these fragments grows less each day. If the infection period can be safely passed, practically the sole apprehension of the medical men will be from the possibility that one of these fragments lies so near the artery surface that a dangerous hemorrhage may result. Such rupture may come without warning.

CHARGES GRAND JURY.

(By Associated Press.) JERSEY CITY, August 11.—Supreme Court Justice Swayzee charged the special Grand Jury on the attempt to assassinate Mayor Gaynor. He practically told the jury that at this time it would be unwise to take up the matter of indicting Gallagher for the reason that the whole matter hinged on the condition of the Mayor.

EASTSIDE IS A WINNER.

BANDON GRANGE IS ON RECORD

A. Haberly, Lecturer of Organization, Issues Statement Making Position on Primary Plain.

(Special to The Times.) BANDON, Ore., August 10.—A. Haberly, lecturer of the Bandon Grange, is out with a statement in which he brands as false the claims that have recently been made that the Grange would not oppose Assembly candidates for office. Mr. Haberly's statement, which is plain and to the point, is as follows: "I wish to correct the false statement sent out by the secretary of the Bandon Grange. The primary law is not a partisan measure. It was fathered and championed by the patrons of husbandry or granges, and by the laboring people all over the State. Our State master for last year sent out to all granges urgent requests that we put ourselves on record as opposed to the Assembly and to op-

pose all Assembly candidates of ALL parties. Bandon Grange took this action despite the scheme of the few Assemblyites at the time the action was taken to get a couple of old-line politicians like Judge Sehlbrede and R. H. Rosa, to make speeches against such action. This was done during our county convention meeting, and the few Assemblyites called upon these well known politicians to speak. They took up most of the time allotted for the discussion so as to crowd out any who might try to defend the grange position. But Bandon Grange, to her great honor, stood by her colors despite these office-seekers and politicians. The State grange is on record as well as our local grange, and despite the trickery that was attempted to mislead and use the grange for political purposes the grange will still stand by her position and fight designing schemers and stand for the people's welfare, any misrepresentation to the contrary notwithstanding."

CITY HAS BEEN GOOD

Only Four Arrests Have Been Made in Marshfield During July.

Marshfield cannot be credited with very much wickedness or disorderly behavior when it is considered that during the month of July the total number of arrests by the city police was four. The total amount of fines and bail forfeited was \$35. All of the arrests were for drunkenness. In fact, this year there have been no arrests for anything worse than drunkenness or disorderly conduct. The following figures show the number of arrests and the total fines and bail forfeited for each month of the year so far:

Table with 3 columns: Month, No. Arrests, Fines. Rows: January (4, \$15.00), February (10, 70.00), March (16, 135.00), April (2, 20.00), May (4, 70.00), June (5, 35.00), July (8, 70.00)

FOREST FIRES ARE SERIOUS

Reported Raging Again on the Flathead Reservation in Montana.

CALL FOR TROOPS. (By Associated Press.) WASHINGTON, August 11.—The forest service has called on the War Department for aid to fight the forest fires in Montana. General Wood immediately ordered a battalion of the Fourteenth Infantry, now in maneuvers at American Lake, Wash., to Missoula.

(By Associated Press.) WASHINGTON, August 11.—Serious forest fires are raging again on the Flathead reservation in Montana, and the situation in the Couer d'Alene national forest in Idaho continues extremely critical. Conditions in other national forests are materially improved, according to advices received by the forest service.

TRAINS CAN GO THROUGH

Track at Johnson's Mill Near Coquille Has Been Temporarily Repaired.

The portion of the railroad tracks which was burned when the Johnson mill near Coquille was destroyed, has been temporarily repaired and trains will probably be able to run over the track to Myrtle Point to-morrow morning. The temporary arrangement will allow the trains to cross, and work of filling in under the tracks will begin at once. It has been decided to leave the track in the same place. Dirt will be hauled in the dump cars and the fill made under the tracks without interruption to traffic.

KILLS THREE IN FAMILY

Chicago Man Does Away With His Relatives and Then Commits Suicide.

(By Associated Press.) CHICAGO, August 11.—W. C. Myers, of 232 Cottage Grove avenue, shot and killed his wife, his brother-in-law and his father-in-law to-day and then killed himself. Myers, who is keeper of a shooting gallery, used his skill with a revolver with great effect. He fired just four shots. Besides Myers, the dead are Mrs. Grace Myers, his wife; Ralph Myers, aged seven; F. S. Boutenage, Mrs. Myer's father. A policeman passing the house heard four shots, and breaking in the door found the four bodies. Death was apparently instantaneous. There are no living witnesses. Myers and wife had separated recently.

MAN HUNT IS STARTED

Posses Out Looking For Freckle-Faced Unknown Who Is An Outlaw.

(By Associated Press.) COLFAX, Wash., August 11.—The hunt for an unknown "freckle-faced" man near Emida, Idaho, began in earnest with the arrival on the scene of bloodhounds from the Walla Walla penitentiary. The "freckle-faced" man, who has terrorized the settlers for two weeks past, is expected to put up a stubborn resistance when driven from cover and to carry out his threats to fight to the last. He is armed with a high power rifle, which he stole from one of the settlers several days ago. To settlers in St. Mary's district, the unknown is alleged to have boasted that he killed Dell McConnell at Colfax on July 4th last. Deputy Sheriffs Cole and Roberts of Colfax and several Idaho deputies are heading posses of settlers who have turned out to aid in the capture of the unknown.

Testimony Shows That McMurray Understood How to Sell Indian Lands.

TRIBES ARE RICHEST OF ANY PEOPLE.

Their Per Capita Against Government in These Cases Alone Is \$5,000.

(By Associated Press.) McALESTER, Okla., August 11.—It was brought out in to-day's testimony before the Congressional investigating committee that baby Indians, as well as adult ones, "signed" the McMurray contracts. The names of the paposes were signed by parents or guardians, the witnesses testified. The general line of testimony was that the Indians believed McMurray knew much better than the Congressmen and Senators how to go about getting lands sold for Indians. Other testimony was interesting in that it developed that "race suicide" was not prevalent among the Choctaw and the Chickasaw tribes, and that six to eight children in a family were common. It also developed that these people are accounted the richest in the world, their per capita interest against the government in these cases alone being about \$5,000, and besides this, they are rich in other lands.

WINS THIRD PIANO.

Mrs. S. A. Yoakam Gets Handsome Prize of a Drawing. Mrs. Sarah A. Yoakam of Coos River to-day received the third piano which she won on puzzle contests. The one she received to-day is a fine large instrument, valued at \$500, and which only cost her \$8.50, the freight from Portland here. The pianos were won on the picture puzzles, being offered for the best drawing offered. Mrs. Yoakam is quite an artist. The other pianos were won within the past year or two.

CREATES EXCITEMENT.

Report of Burning Vessel Scares Chicago People. (By Associated Press.) CHICAGO, August 11.—Widespread consternation prevailed for three hours to-day due to a report of a ship on fire on Lake Michigan, twenty miles northeast of here. Friends and relatives of thousands thought to be on excursion ships kept telephoning to the newspapers, steamship offices and wireless companies. Before the truth was ascertained every boat running out of Chicago on the line where the fire was reported had been accounted for as safe. After three hours of search Fire Marshal Haran of Chicago reported that the vessel about which there was so much concern was being brought into Chicago harbor under her own steam. When the fire tug Graeme and the Flora Hill, the steamer in question, arrived, the people on the Flora Hill stated there had been no fire on board that craft and both steamers said they had not seen any burning vessel. Whether there is another ship afloat somewhere on the lake could not be ascertained.
