OFFICIAL PAPER OF THE CITY OF MARSHFIELD.

#### WELCOME, MR. BOWERMAN.

THE TIMES hastens to extend the glad hand of greeting to Jay R. Bowerman, the Assembly candidate for Governor, who arrived on Coos Bay to-day. The Times does not agree with Mr. Bowerman's brand of Republicanism and there are hundreds of other Republicans of like mind in this section, but Mr. Bowerman will find that Coos Bay and Coos county hospitality knows no narrow confines of factionalism or political prejudice. We are glad to see him, glad to greet him and bid him welcome to our hearts and homes during his stay, be it long or short. The keys of the city and the homes of its citizens are his without asking.

As Acting Governor of Oregon, Mr. Bowerman will be welcomed and accorded every courtesy and honor that is due a distinguished citizen of our State. Everything possible will be done to make his sojourn so pleasant that he will want to come again. Welcome, Mr. Bowerman!

#### THE HORSE HOLDS HIS OWN.

THE HORSE who still persist in believing invention, device and living that every new labor-improvement tends to deprive the older producers, men and beasts, of occupation might find in recently compiled statistics relating to the horse a striking contradiction of their pet theory. The "horseless age" which was prophesied with the coming into general use of the automobile has not arrived, and, what is more to the point, it seems to have been indefinitely postponed. That is to say, we have it on the authority of the Live Stock Journal, says an exchange, that horses have increased six million head in the last ten years. There are now in the country 31,000,000 farm and city horses, with a valuation of \$3,500,000,000, and prices are better than ever before—\$250 to \$500 for good draft horses.

How is this accounted for? The answer is: The railroads and various forms of machinery have called for more horses to do the increasing work. All the automobiles manufactured in the world in 1910 will number, it is estimated, 235,000, and their value will be about \$235,000,000. The 2,000,000 horses in Illinois alone are valued at \$256,000,000. Horse breeding is the most important industry in the country as well as the most profitable, it is claimed, and we are told that farmers cannot supply the increasing demand from American and European markets for more and better animals.

Now all this must convey a sense of deep satisfaction to the mind of every right-hearted man. All those who favor progress will hope for a tremendous expansion of the automobile industry in the years to come. Every observant and well-poised person must see that the automobile has come to stay and that its use will constantly increase. But we all want the horse to continue to hold a place in the world's activities, and it is pleasing to know that so far steam, gasoline and electricity, instead of wresting occupation from him, have increased his opportunities, and, on the whole, bettered his condition.

## CLEVER BOUTS ARE SCHEDULED

### Much Interest Taken in Boxing Exhibition at North Bend Next Thursday Night.

The boxing bouts to be pulled off at North Bend next Thursday evening, August 18th, under the auspices of the North Bend Athletic Club promises to be the classiest exhibition ever seen on the Bay. More interest has been aroused by it than has been taken in any one that has been scheduled here for months.

Danny O'Brien and Bobby Evans, who made such a good showing at North Bend July 4th, will go twenty rounds. Both have been in training for some time and are in the pink of condition.

Franky O'Brien and Kid Esposito are slated for a ten-round go and as both are clever little chaps, more than usual interest in preliminary events centers in them.

Many reserved tickets have already been sold, insuring one of the largest turnouts that has witnessed a boxing exhibition on Coos Bay. The prices are \$3 for reserved seats and \$2 for general admission. The bouts are to start at 8.30 sharp. Better have your seat reserved at once if you are going.

#### TRAINS CAN GO THROUGH.

### Rail Connections With Myrtle Point Have Been Established.

The trains on the Coos Bay, Roseburg and Eastern Railway are now running through to Myrtle Point. The first train went through yesterday. The tracks are arranged on a temporary structure, but it will be filled in with dirt and the former trestle done away with entirely.

#### SOME OF L. S. KAUFMAN & CO.'S SUGGESTIONS TO CAREFUL BUYERS.

125x210 feet, corner, on Commercial avenue; the size of this parcel, its location on a good street (planked), and its nearness to business center—mark it for sure advance—and should recommend it to cautious buyers; price . . . . . \$2650.00  
Two splendid large lots in South Marshfield, east front, high ground; street now under improvement; desirable neighborhood; excellence of location and a price well under the market make this one of the best investments we have to offer. Price (with \$250 street grade to be assumed, payable in ten annual installments) . . . . . 1500.00  
50x140 on Fifth avenue (bituminous rock paving on street); lots perfectly level and up to grade; in excellent residence section; purchasers to assume street grade (bonded); these lots are considerably under the market, and we recommend them as a good buy. . . . . 900.00  
50 feet on Central avenue, improved, with 7-room house; slightly location with good view; we believe the house could not be duplicated for the price asked for both house and lot. . . . . 1100.00  
Two lots on Broadway; Broadway property is always in demand, with stability of value and best chances of increase (Cook lots); this is one of the few parcels offered on west side of street; this side of Golden avenue. . . . . 2400.00
