MUCH LIVE STOCK MOVES

FINE CATTLE AND SHEEP ARE BRINGING GOOD PRICES FOR COOS RANCHERS.

MYRTLE POINT, Ore., Aug. 27.—One of the best bunches taken away from here was a herd of forty-one head that had been grown and fattened by C. W. Haines of Eckley. The average weight of the steers in this group was 1,260 pounds and Mr. Haines received \$4.50, making the average value of the animals \$56.70, and the entire bunch bringing in \$2,324.70. This income represents just about the minimum amount of effort. After the young stock is secured, about all the attention they require is an occasional salting until they are ready for the market.

A bunch of 250 head was received from the Dement range, being marketed by Dement and Braden. These cattle are also in prime condition and always command good prices. The tendency to go into dairy stock does not afford the best opportunity for the stock raiser and finally he may be forced to breed if he wishes the best prices, but the Dement range is capable of doing the best possible with the stock fed there, and if good young stock is secured, fancy beefs are turned out.

Other ranges and ranches contributed to the total, and the buyer, Mr. Hanan of Roseburg, took out 50 head, besides a number of animals which have been sold to the butchers in this valley and those on the bay.

The movement of sheep toward market has also commenced. J. I. Knight took a bunch of some 3,200 head through town Wednesday. They were picked up on the ranges in Curry county largely and are being driven through to Oakland, where they will be placed on the cars and shipped to Portland. The sheep are also in fair condition and will likely command good prices.

MACHINERY READY.

Black Sand Mining to Be Extensively Carried On.

That some extensive work is to be done in the way of black sand mining in Curry county is indicated by the following from the Gold Beach Globe:

Mr. Johnson, the expert black sand miner of the Idaho Gold and Black Sand Company, arrived here Saturday evening. He brought with him a mechanic, and has thirty ton of machinery at Marshfield awaiting shipment by the Coast to this port. Under the direction of C. H. Helling, this company has the foundation laid for their large building, and are fast getting the necessary lumber and other material on the ground with which to operate extensively. After directing his men in placing the machinery, Mr. Johnson will make one more trip to San Francisco, after which he will superintend the business here in person.

HOUSE CAUGHT FIRE.

Fire caught in the roof of the kitchen of the Henry Schroeder home northeast of town and a number of men went out from town to help fight the flames. The fire was got under control before a great deal of damage had been done, but a large hole had been burned through the kitchen roof. It is thought that it caught from sparks from the flue.

HENS IN A LAYING CONTEST

Sussex and Yorkshire Fowls Keeping the Bookmakers Busy.

The following press dispatch suggests that some such method be adopted by Coos county poultry experts to establish a record:

LONDON, August 27.—An egg-laying contest is now on in Sussex and Yorkshire. The organization sponsoring the competition bears the title of the Utility Poultry Club. Bookmakers are said to be doing a roaring business in handling the wagers of persons who are backing their favored favorites.

There are thirty pens of four each in either county, the Sussex fowls being housed near Rye. Sussex fowls already have caused the bookkeepers to ring up a total of 1,427 eggs. First place was taken at the outset by a pen of four white Wyandottes, which have a record of laying ninety-one eggs in thirty-eight days. On the other hand, the Yorkshire hens have not yet laid a single egg.

HORSE RUN AWAY

Results in a Child Being Hurt Near Myrtle Point.

MYRTLE POINT, Ore., Aug. 27.—Tom Kinnicut and his sister, Mrs. W. E. Pike and two children, were the victims of a runaway accident on the road running east from town. They were returning from the Kinnicut ranch when a colt broke out of the pasture and started to follow the team. The colt was caught and tied to the buggy, which treatment resented and in thrashing around broke one of the wheels of the vehicle. This threw Kinnicut out. He held the lines but could not stop the horses, who had become frightened, and they started to run.

Mrs. Pike threw the children out and then jumped, none of them being injured, but the buggy was badly smashed up and the harness broken. The horses ran among the children of A. T. Train, who were in the road, and the breath was knocked out of one of them, it being several hours before the child was restored to consciousness.
