Priest Returns.—Rev. Father Moran, who has been taking an extended vacation, during which he visited Ireland, returned to-day on the Breakwater. Father Moran says that he found on the coast of Ireland the only climate that compared with Coos Bay.

Repairing Street.—Market avenue between Front street and the bay is being repaired. The city keeps in repair part of the street next to the water front and has advertised for bids for doing the work. The property owners have started on doing their part and the plank street is now being torn up along the side of the Lockhart grocery store.

Repairs New Auto.—A new automobile for Dallas Foote arrived on the Breakwater to-day. It is a thirty horsepower Cadillac. George Goodrum, who is agent for the machine, went to Portland and brought the auto back. Mr. Foote will put in most of his time running the machine as a business.

Carrying Mail Again.—The Masters brothers have taken back the contract for carrying the mail between Sumner and Marshfield. They gave up the contract for a time and other arrangements were made for transporting the mail but the old arrangements have again gone into force and the Masters brothers' boat will carry the mail and stage passengers as well.

C. A. Smith Coming.—C. A. Smith is expected here within a day or two to spend some time on the Bay. Incidentally he will see for the first time his first grandchild, Miss Betty Warner, the four-months' old daughter of Mr. and Mrs. F. A. Warner of Sacramento, who are visiting here. Mrs. Warner was formerly Miss Nann Smith.

Maybe Coke Building.—While it has not been definitely announced, it is understood that the fine new three-story brick building which W. S. Chandler and J. S. Coke are completing opposite the Chandler Hotel will be called the "Coke Building" in honor of Judge Coke. It is expected that the building will be ready for occupancy within a comparatively short time now.

Here From England.—George Hutton O'Connor, the nine-year-old son of Mrs. J. W. Bennett, arrived in the city yesterday. His home was in Ireland, but he has recently been attending school in England and came to America to be with his mother. He will enter school here. The boy came from the East with Mr. and Mrs. R. M. Jennings, who returned home yesterday.

Made Strange Find.—A party at the beach Sunday found a strange sort of sea animal. The party was composed of Messrs. Bradford, Fenion, Barnard and Lyons. Bradford says the animal was dead, having its neck broken in some way. He says it looked like it was between an octopus and a cuttle fish. It was about six feet long and weighed about 150 pounds, and had ten long suckers and a peculiar sort of sack on its back which appeared to be its manner of holding prey. Bradford said that the animal was not usual for this locality and that it was certainly a bad looking thing. The party believed that it belonged in Southern waters and had in some way gotten up this far.
