will meet at 10 o'clock tomorrow morning at Coquille. The officers will be elected and an organization of the new committee perfected.

Farmers' Union Meets.—The members of the Farmers' Union will hold a picnic at Coquille today.

Cooston Services.—Mr. Walker will hold services at Cooston at 3 o'clock Sunday afternoon. A boat carrying people from Marshfield will leave Commercial avenue dock at 2 o'clock.

Bar Was Rough.—The Coos Bay bar was still quite rough this morning. The Nann Smith did not attempt to go out this forenoon. The Plat left North Bend at 11:30 a. m. and was due to leave if the bar would permit.

May Locate Here.—L. Darling arrived here from Portland yesterday and may locate in this city. He is a clarinet player and the members of the Coos Bay band are endeavoring to induce him to stay and take a place in the band.

Filling Street.—The dredge at the foot of Market avenue is at work making the fill. The heavy mud from the bottom of the bay is being taken up by the big shovel and dumped into the street and it will take but a short time to make the fill.

Repairing Wires.—Manager Schetter of the Western Union has men out at work on the telegraph wire from this city to Roseburg and will have the wire in better shape soon, but of course the repairs cannot prevent the breaks that occur in the winter time due to the falling of trees.

Engineer on Gleaner.—Engineer Hansen, formerly of the tug Columbia, and who for some time has been on the tug at Bandon, is in the city. He has accepted a position as chief engineer on the tug Gleaner of the Umpqua river. He is well known at Gardiner as well as on Coos Bay.

No Change.—There has been a report in circulation on the streets that E. F. Morrissey had purchased M. E. Whittemore's interest in the Coos Bay Construction company. This is authoritatively denied and there is no change in the ownership of the company.

Visits in Roseburg.—Mrs. S. A. Yokum of Marshfield, who has been spending the past two weeks visiting at the home of her uncle, George Noah, in this city, left for Portland this morning. Mrs. Yokum was until recently deputy dairy inspector in Coos county and is well known throughout that section of Oregon.—Roseburg News.

Gets Results.—“The Times want ads sure beat anything I ever run across for getting results,” remarked L. J. Simpson on the phone yesterday after he had ordered out a want ad offering a safe for sale and which got him a buyer. “I have had occasion to test them out several times the last few months and every time they have brought me great results.” This is but another illustration of what is being done every day.

Gets New Pump.—A new electric turbine centrifugal pump arrived on the Breakwater yesterday for the Coos Bay Water Company. It has a capacity of 1000 gallons per minute and it is believed will furnish the company more than sufficient water for all purposes and eliminate any danger of a shortage in the supply. It will be installed at the pumping station as quickly as possible and will replace the old steam pumps.

Forming a Branch.—Frank Riebo returned today from Coquille, where he is organizing a branch of the People's Co-Operative company. A room for the store has been secured in the business district and so far about fifty of the farmers have signified their intention of taking stock in the enterprise. Mr. Riebo says that there will be no trouble about securing enough stock subscriptions to organize a large branch and conduct a fine store in Coquille.
