OFFICIAL PAPER OF THE CITY OF MARSHFIELD.

COOS COUNTY MAN HONORED.

COOS COUNTY has been honored in the nomination of one of its citizens, Mr. Hugh McLain, as a candidate for state railway commissioner on the democratic ticket. The Times may say this much without compromising its position or principles as a republican newspaper. It may state further that Mr. McLain as a citizen and business man has a clean and honorable record, with a private life of a character that requires neither apology nor explanation, but is a credit to American manhood. He is eminently qualified both by acquired knowledge and natural attainments for the position for which he has been chosen by his democratic friends. The Times thinks it only fair as a townsman and neighbor of Hugh McLain to bear public witness of his good qualifications to the people of Oregon where he is not known. Mr. McLain is a man of good business capacity and of business experience. He is cool headed, practical and of excellent judgment. He knows the ways of the business and industrial world. He is of sterling character and will stand firmly and faithfully for the best interests of the people and the state.

The Times is not supporting Mr. McLain for the office, but deems it only fair that a fellow townsman who has been so signally honored by the opposing political party should receive the home endorsement which his merit warrants.

VIVE LA PORTUGAL!

THE NEWS of the revolution in Portugal shows that the world is advancing even in the darkest corners. For centuries Portugal has been ruled by a dynasty that has been notoriously unfit. Royalty has held its unjust sway through the power of the army and navy and through the ignorance and superstition which the government fostered among the people.

But with the passing years the light of the modern world has penetrated the kingdom of the Braganzas. People have grown tired of bowing before titled pinheads and libertines, who have neither governing capacity nor proper personal morality, and they have grown tired of seeing the money of the nation squandered as King Manuel has been spending it. So they have risen in their power and have kicked Manuel and his retinue out of doors.

Long live the people of Portugal!

A NEWSPAPER'S DUTY.

No newspaper can succeed that is willing to serve as an organ for any political clique or party. The experiment has been tried here and elsewhere many times and the result has been invariably the same. The duty of a legitimate newspaper is to the public at large and only by serving the public at large can a newspaper hope to live and enjoy permanent prosperity.

KEEP RECORD OF HENS.

Egg Laying Record Likely to Be Broken at Corvallis.

CORVALLIS, Ore., Oct. 11.—Nov. 1 will see the completion of some valuable tests now being made at the Oregon Agricultural College by Prof. James Dryden, poultry husbandman, which will prove the effect of crossing Barred Plymouth Rocks with White Leghorns to increase egg production.

By means of the trapnest which Prof. Dryden originated some years ago and which is now in use at a number of experiment stations and poultry farms of the country, he has several hundred hens out of the college flock of 2000 chickens making laying records. While some have made a record of less than a dozen eggs in a year, others have laid over 200 eggs annually.

A SCARCE ARTICLE.

Really desirable property in the close-in residence sections of Marshfield is very hard to obtain. New improvements are making it continually more valuable. Outside additions can never compete with it, but each new section opened up will make this nearer property more central. We offer 100x140 feet at the corner of 14th and Central—and 160 x120 across the street opposite, at low figures. Either plot can be divided and sold in separate lots. \$800 buys a 40-foot lot. I. S. Kaufman & Co. have these for sale.

They Used to Put the Shutters Up at Dusk

Before the electric light was invented merchants did not realize the focusing power of show window lighting.

Merchants were not to blame, for means of scientific show window lighting did not then exist.

Today central station service and tungsten lamps give every business man a chance to turn the spotlight on his wares.

Perhaps you don't know how little it costs.
