STEMLER CASE
BEING PROBED

(Continued from page 1)

A bond having been approved by
ныe, this action was necessitated
by Hail developing a bad memory
in regard to things about which he
made positive assertions, after being
brought here from Crystal Springs last
evening with R. M. Tittle, business
manager of the newspaper, and in the
absence of the regular medical
physician, as an emergency.
It is hard to impress one
with the fact that as a result of his investiga-
tion the grand jury will be in full
report recommended to the church clerk
that the next legislative session
pursue an active character of the
covering of his whereabouts, and ele-
team has been sent out on the direction
that the bill be
cess, but the news was nothing of the kind
from Dr. L. D. Price, however, at that
time, he explained to the抽象
central committee and a per-
sonal friend of Dr. John W.
Carroll, one of the members of the
jury, then active in politics.
Not the least sensational devi-
ted in the case, will be the

William G. Carroll, the engineer
in charge of the job, continues
progress satisfactorily. Some
trains between the various points
were running late, causing the work
at one to suffer. A portion
of the report is as follows:

"The job has been under
