OFFICIAL PAPER OF THE CITY OF MARSHFIELD.

PUBLICITY AN EFFECTIVE WEAPON AGAINST PREDATORY WEALTH.

PUBLICITY forms one of the remedies for the abuses perpetuated by predatory wealth and conscienceless politicians. President Taft has recommended the extreme of publicity for the transactions of some sorts of corporations. Commissioner Smith of the bureau of corporations urges that interstate industries report regularly to some national body. This system would make national supervision permanent and bring the people, the government and the corporations together.

The statements of facts as to such corporations as the sugar trust and the condemnation of them by public opinion and the law have already lessened many forms of commercial oppression, outlawed the railways' discriminations as to rates, wiped away corporate evils and led managers to advocate more open accounting. A better type of managers of corporations is struggling with the older kind to control the organization of commerce. Formerly the slogan was "The public be damned!" Now the standard is "The public be pleased."

Publicity has begun to bring the corporation into co-operation with the government for the people's good. It helps to base big business on fairness, openness and popular trust. It will eventuate in improving the standing of securities.

If business is to remain a lasting force in American progress it must be fair, open and trustworthy. Only teamwork between the state and the corporation can continuously adjust the ever shifting and always complex relations between the forces of business and the people's welfare.

The people have willed righteousness in business as in politics. The will of the American people never its of final fulfillment.

THE FLYING MACHINE INDUSTRY

The flying machine may never be brought to that stage of perfection and reliability essential to the needs of every-day travel and commerce, but as for its gaining a place in the industrial world, it has already done that; albeit, it may be on a footing similar to that of the jack-in-the-box and the monkey on a stick, and if so, perhaps the more secure for that, since we will have our toys, regardless.

The aeroplane industry has developed in France with as much rapidity as did the motor car industry and now a number of aeroplane factories are running to full capacity. A little more than a year ago there were fewer than one hundred aeroplanes in all Europe, but, since Bleriot's first cross-channel flight he has built 250 duplicates of his monoplane and Farman has manufactured more than one hundred biplanes. Other types bring the French production up to about eight hundred, which have sold for something more than \$2,500,000. The small Bleriot sold at first for \$2000, but after its success in crossing the channel, the price was raised and

those of the latest type now cost from \$3100 to \$5100. The catalogue prices of other important makes are: For the Farman, \$5600; the Voisin, \$4600; Antoinette, \$5000; Wright, \$5000, and Sommers, \$5000.

The auto is fast coming to a business basis but pleasure was the motive that carried it far on its way to success. Even though the flying machine may never be much more than a plaything, there are manifestly great possibilities in it for the manufacturer.

WITH THE TOAST AND TEA

GOOD EVENING.

There ain't no use o' kickin' and swearin' at your luck,
Yer can't correct the trouble nor'n you can drown a duck,
Remember, when beneath the load your sufferin' head is bowed,
That God'll sprinkle sunshine in the trail of every cloud.
—Capt. Jack Crawford.

IS IT WORTH WHILE?

Is it worth while that we jostle a brother,
Bearing his load on the rough road of life?
Is it worth while that we jeer at each other—
In blackness of heart, that we war to the knife?
God pity us all in our pitiful strife.

God pity us all as we jostle each other;
God pardon us all for the triumph we feel
When a fellow goes down 'neath his load on the heather,
Pierced to the heart. Words are keener than steel,
And mightier far for woe than for weal.

Were it not well in this brief little journey,
On over the isthmus, down into the tide,
We give him a fish instead of a serpent,
Ere folding the hands to be and abide
Forever and aye in dust at his side?

Look at the roses saluting each other;
Look at the herds all at peace on the plain.
Man, and man only, makes war on his brother,
And laughs in his heart at his peril and pain—
Shamed by the beasts that go down on the plain.

Is it worth while that we battle to humble
Some poor fellow down into the dust?
God pity us all. Time, too soon will tumble
All of us together, like leaves in gust,
Humbled, indeed, down into the dust.
—Joaquin Miller.

"Gossip is one of the few things that don't lose its flavor after being warmed over several times."

THE QUIET OBSERVER SAYS:

The Minneapolis Tribune volunteers the information that "war is no female seminary game." Some years ago General Sherman expressed the same opinion in different words.

COLES' BODY FOUND.

Indications Are That Missing Chicago Man Was Murdered.
(By Associated Press to Coos Bay Times.)

CHICAGO, Oct. 14.—The body of Walter B. Coles, president of the Keeffe-Coles Printing company, who disappeared a week ago, was found in Lake Michigan today. From wounds on the head the police believe Coles might have been murdered. His coat was missing. He apparently had only been in the water a few days, though he disappeared a week ago.

THE ACTRESS and THE SPOTLIGHT

The actress craves the spotlight as she craves success.

She knows that powerful light focused upon her, isolates her personality and concentrates attention upon her beauty and charm. Every retail business needs the spotlight of Electric Show Window Lighting to concentrate public attention upon the merit of its merchandise.

Not all electric window lighting is what it should be, because sufficient care has not been given to the installation.

We have illuminating experts, competent and glad to assist you as part of the service.
