The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength in building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer the Hundred Dollar Reward for any case that it fails to cure. Send for list of testimonials.

PADDED THEIR CENSUS.

Portland, Tacoma, Seattle and Minneapolis Frauds.

WASHINGTON, Oct. 18.—Staggered by the enormous growth shown by the returns of the new census for a number of Western cities, Director Durand, of the Census Bureau, ordered an investigation, the result of which appeared in the announcement that gross frauds had been perpetrated.

Mr. Durand also gave out a letter from President Taft, directing that persons implicated in the alleged frauds be prosecuted.

Cities specifically mentioned as being affected by the frauds are Tacoma, Seattle and Aberdeen, Wash.; Portland, Ore.; Minneapolis, Minn.; Boise, Idaho, and Fort Smith, Ark. It is said that there are many other cities involved.

Corrected returns and report on alleged padding in Portland have not yet been received, and Director Durand is not fully informed as to the nature of the padding done there, but will make full announcement at the time corrected population has been completed at Seattle and Boise, and announcement of those two cities will be made soon with a full statement of the fraud.

The result of a second enumeration of Tacoma, Wash., was announced. The city shows a population of 82,972, an increase of 45,258, or 120 per cent over the population of 1900. The first figures turned in for Tacoma were 116,248.

In other words, the actual population was padded to the extent of 33,296, which would have meant a further addition of 40 per cent.
