CHICAGO, Ill., Oct. 22.—A long struggle by Archer, who replaced Kling and held the bat for Chicago in the world's championship series today, brought in the winning run in the tenth inning. Today's game was the most fought of the series and the crowd went wild when the winning run was brought in as they did when Chicago tied the score in the eighth inning.

"Kling" Cole pitched for Chicago today while Bender, the Indian, pitched for Philadelphia. Kling was out of the game entirely, batting for Cole in the eighth inning. In the ninth, Brown replaced Cole in the box.

The weather was fairly good, the sun breaking through the crisp fall air this morning when the thermometer registered 42. The grounds were in fairly good condition, although a little wet in places from yesterday's rain.

The teams go to Philadelphia tonight on a special train where they will play tomorrow, the weather permitting.

Manager Chance had the honor of batting in the score that gave Chicago a chance to win in the tenth inning. In the ninth, Chance was out, and the Chicago fans felt relieved, but they almost went wild when the umpire ruled that Chance had deliberately got in front of the pitched ball. Then Chance landed in for a three bagger and Schulte came in, tying the score.

The game in detail:

First Inning. Philadelphia—Strunk out, Steinfield to Chance, Lord flew out to Schekard. Collins out, Chance to Tinker, who covered first.—No runs.

Chicago—Sheckard walked. Schulte fanned. Schekard stole second and scored on Hofman's bounder over third. Chance forced Hofman out at second and was himself declared out at first because Hofman interfered with the throw.—One run. Play on Hofman was Baker to Collins.

Second Inning. Philadelphia—Baker singled, Davis fanned, Schulte took Murphy's fly. Baker out stealing, Archer to Tinker.—No runs.

Chicago—Zimmerman flew out to Murphy. Steinfield grounded out, Baker to Davis. Tinker walked. Tinker out stealing, Thomas to Collins.—No runs.

Third Inning. Philadelphia—Barry sent half a dozen fans to various parts of the grounds, and then went out, Steinfield to Chance. Thomas was easy, Cole to Chance. Bender got a base on balls, and scored on Strunk's triple to left center. Strunk over third and was out, Schekard to Steinfield.—One run.

Chicago—Archer fanned. Cole fanned. Thomas dropped the ball but threw Cole out at first. Schekard flew to Strunk.—No runs.

Fourth Inning. Philadelphia—Lord fanned. Collins on third. Collins crossed the plate but was sent back to third under ground rules. Davis fanned. Baker and Collins scored on Murphy's double into the left field crowd. Barry fanned.—Two runs.

Chicago—Schulte singled to left. Schulte went to third when Hofman hit too hot for Davis. Schulte scored on Chance's single. Hofman went to second. Hofman and Zimmerman

Report That Railroad Company Is Negotiating For Property There.

Wm. King, who was in from his ranch near Cooston today reports that the people of that section are confident that parties who have been endeavoring to buy some reaches in that vicinity are representatives of a railroad company.

During the last few days, strenuous efforts have been made by certain parties to purchase the ranches of Mr. Ray, Mr. Smith and several others where the land lies low or fairly level.

Some insist that the negotiations are in behalf of the Southern Pacific which has showed considerable activity during the last couple of months.

Captain Panter brought up from Rocky Point Wednesday evening his new river boat, the Dora, which has been building there this summer.

The new boat contains the machinery formerly used on the Echo, but the new boat is larger and better in every way than the Echo, and will be a valuable aid to the river traffic between this point and the lower river. Captain Panter is also arranging for the better handling of freight. A new hoist has been installed at Coquille and another hoist is on the ground to be installed at this end of the route. He has now two new boats and with the new hoists will afford fine conveniences for the handling of the river business.

American Physician Quickly Found Guilty of Wife Murder By London Jury.

MAINTAINS INNOCENCE DESPITE EVIDENCE

Miss Leneve Will Next Be Tried As An Accessory to the Crime.

WILL HANG NOVEMBER 16.

(By Associated Press.) LONDON, Oct. 22.—It was announced this evening that Crippen will be hanged November 16. The trial of Ethel Clara Leneve as accessory after the fact in the murder of Mrs. Crippen will begin next Tuesday.

(By Associated Press to Coos Bay Times.)

LONDON, Oct. 22.—Dr. Crippen was convicted of the murder of his wife and sentenced to death. The jury was out thirty minutes.

When the jury brought in the verdict, Crippen was asked if he had anything to say and replied, "I still protest my innocence."

Addressing the condemned man, Lord Chief Justice Alverstone said, "You have been convicted on evidence which can leave no doubt in the mind of any reasonable man that you cruelly murdered your wife and then mutilated the body."

"I advise you to entertain no hope that you will escape the consequence of your crime. I implore you to make your peace with the Almighty God."

NOW IT'S THE "WEDGE SKIRT"

V Shaped Opening in Paris Garment Gives Glimpses of Stockings.

PARIS, Oct. 21.—Paris' latest fashion wrinkle is the wedge skirt, successor to the hobble skirt, which it resembles. Its most striking feature, which gives it the name, is a "V" shaped opening in front.

Although the skirt is narrow at the bottom, this wedge allows the wearer to walk with comparative ease. The opening can be made large or small, according to the taste of the wearer.

It is a combination of the hobble skirt and the sheath skirt, which caused so much stir, but had only a short vogue here. As the wearer steps into a carriage or on a car she is likely to afford something more than a glimpse of her dainty shoe and stocking.

NEW ELECTRIC PLANT.

More Juice to be Furnished to Myrtle Point.

Owing to a lack of about half a mile of heavy copper wire for the main power line, the electric lights were not turned on last week as had been expected, but it is expected to give service in a few days more. Those who have visited the new plant say that it is very finely equipped and it is expected that excellent service will be given. Myrtle Point will not get its full service for about a month more, because two large transformers, to be used on this end of the line have not been received. One of these is to step the current up to 6,600 volts at the Coquille end, and the other at this end will reduce it to 2,300 volts just outside of town, thus bringing sufficient power to town for all purposes.—Myrtle Point Enterprise.
