PRESIDENT CLARKE REPORTS COOS BAY LINE'S PROSPECTS BRIGHT

President Clarke reports that financing of the project has been completed some time.

Further statement to be made soon.

Days that some unexpected opposition on Coos Bay has slightly delayed them.

President Francis H. Clarke of the Coos Bay and Boise line, today made the following statement concerning the project:

"It is not quite time to make a statement in regard to the plans of the Coos Bay & Oregon Central Railway company, but we hope to be able to do so soon. It is right that the public should know that the financial part has been completed for some time and that the road is to be built. With some few amazing exceptions the people of Marshfield have been the company's steadfast friends and have given it their moral support. This is particularly true of the business men. The Flanagan & Bennett bank and the First Trust and Savings Bank have been broad and helpful, and it is not possible to understand how any business institution could find a basis for belittling the road or myself. However, inquiries from the far east to such an institution resulted, it seems, in the statement being made that my financial standing was nothing.

Probably no manner or more untrue position could be assumed by a Coos Bay institution or by any institution which aims to build up Coos Bay than the one referred to. The people of Coos Bay know that I have made no personal pretensions, but that nobody but myself has been known in the expenditure of thirty thousand dollars in making the survey and preparing the maps and plans of this road. Large sums of money have been expended beyond the amount of which the people know and can know nothing and the total expenditure to this date amounts to approximately sixty thousand dollars. It must be conceded that if I made this expenditure for somebody else, then I must have some financial standing with men who live elsewhere than on Coos Bay. If I have been expending my own money then I am not entitled to be belittled as a financial factor. Fortunately the business establishment referred to has succeeded only in bringing upon itself the contempt of those who sent the inquiry as all other answers, as well from the banks and many in St. Paul and Portland have been entirely favorable. But such ignorance, malice or jealousy has caused some delay, although I am happy to say—not much. The road will be built.

The main difficulty which the company has encountered has been the conditions existing on Coos Bay. I do not mean to say that anybody is to blame for it, but state only the facts. Even this difficulty is very nearly a thing of the past and in the time a new era will dawn when the old depressing spirit will disappear and the dry rot of envy will pass with it. The men who have wisdom enough to concentrate their efforts on the one thing which will make a prominent city on Coos Bay should support it in season and out, faithfully and persistently, will see not only the Coos Bay-Boise road built but at least one other and that other will be forced to build for its own protection. As stated, I hope to make a statement within a few days which will be entirely to the liking of the true friends of Coos Bay."

BAD BOYS ARE HOUNDING UP

Geo. N. Bolt and Nightwatchman Shoupe Catch Half-dozen Miscreants.

The one band of youngsters that was guilty of malicious mischief under the guise of a Hallowe'en frolic last evening was rounded up by Geo. N. Bolt and Nightwatchman Shoupe after they had thrown some sixty-penny nails through a large glass front window in Mr. Bolt's home on South Second street last evening.

When the nails came crashing through the windows, Mr. Bolt sprang for the door and after the dozen boys who had been throwing them. The lads started on the run towards town but ran into Officer Shoupe who had been keeping watch of their operations. Mr. Bolt brought up the rear and soon the dozen or so were cornered.

Mr. Bolt was loathe to punish them but having them taken to jail and upon promise of the boys to recompense him for the damage, they were allowed to go. The names of all in the party who were between fourteen and seventeen years of age were taken.

Prior to this escapade, they had perpetrated other less serious tricks in South Marshfield.

So far as could be ascertained today, they were the only ones doing any serious mischief under the guise of Hallowe'en fun.

WRITES ABOUT THE JUDGESHIP

ATTORNEY ABRAHAM OF ROSEBURG, MAKES STATEMENT CONCERNING CANDIDATES FOR CIRCUIT BENCH.

ROSEBURG, Or., Oct. 27, '10. Editor Times:

The article appearing in the Coos Bay Times of October 24th, entitled "Judge Coke's Candidacy" is enough to set one thinking.

"And thus the native hue of resolution Is sicklied o'er with the pale cast of thought."

In the last legislature, of all the votes I cast, I most prided myself upon the one I cast to give Coos County justice. It is a well-known fact that without my assistance in the matter, it would have been impossible to have passed the bill creating the office now filled by Judge Coke, providing the ordinary rules of legislation prevailed which leaves such matters to the district interested, and which it was understood did prevail at that time.

Is it possible that in my desire to free Coos County from the very evil complained of now against Judge Coke's candidacy, Coos County has "jumped from the frying pan into the fire," as it were? I blush to think this possible. Yet the picture drawn is so faithful a delineation of the evils I fought against that it could not be a better exposition of my objections to Judge Hamilton.

What should one do under such circumstances? I am a believer in the purposes of the direct primary law as expressed in its preamble: "The method of naming candidates for elective public offices by political parties and voluntary political organizations is the best plan yet found for bringing before the people the names of qualified and worthy citizens from whom the electors may choose the officers of our government." I believe in the integrity of parties, and that if parties are good

PONY SLOUGH FLAT FILLED

L. J. Simpson Will Bulkhead Two Miles Around Lowlands There.

Noble Brothers yesterday began one of the biggest pile-driving contracts that has been started on the Bay for a long time. It is to drive a row of piling nearly two miles long and which will permit the bulkheading of the entire Pony Slough Water front and the filling of the tide flat.

The contract was awarded to Nobles by L. J. Simpson and is for the purpose of reclaiming the mud flats and also for providing a place where the shoals in the channel can be dredged out without being swept back into the channel. A year ago when the Pony Slough Shoal was dredged off, the dredgings were thrown back in on the tide flats only to be swept out again by the wash of the tides.

New Yorker Held For Soliciting and Accepting Bribe in Murder Case.

(By Associated Press to Coos Bay Times.) NEW YORK, Nov. 1.—Charged with having solicited and accepted a bribe of \$500 to bring in a verdict acquitting Edw. T. Rosenhemer, a wealthy manufacturer, charged with the murder of Miss Grace Hough whom he is alleged to have run down in his automobile, Geo. W. Yeandel an architect who was drawn as a juror at the trial of Rosenhemer which was opened this morning, was arrested today, and brought before Supreme Court Justice O'Gorman, together with Dagelbert Tiemendorfer, an alleged go-between, in the case, who was also placed under arrest. A neat trap was laid for Yeandel and Tiemendorfer upon information furnished by Rosenhemer's attorneys.

To prove Yeandel's value, Tiemendorfer told Rosenhemer's attorneys that Yeandel had been one of the jurors in the first Nan Patterson murder trial and had hung the jury after holding out against a verdict of guilty for 17 hours.

The grand jury late today found indictments against Yeandel and Tiemendorfer.
