CARBORUNDUM

As a Sharpening Factor

THROW AWAY THE OLD GRINDSTONE

It has served its time. By its use good tools are cast aside as worthless, when in reality they are only dull and rusty. The sandstone has clearly demonstrated that it is the most expensive implement about the shop or farm, and just as long as it is used, just so long dull tools will exist.

WE HAVE ON DISPLAY the largest assortment of carborundum grinders and sharpening stones ever shown in Marshfield and our prices are all plainly on each article. — See our window display.

REMEMBER Carborundum cuts 31 times faster than any other stone.
