HOW TO TRAIN A BABY

Some Up-to-date Scientific Hints On Care for the Little Coddler.

Realizing that in these high-tension days few people have the time or inclination to lay out a regular set of rules, we have formulated the following ones. They are guaranteed to do the business or money back. They cost nothing.

First, get your baby. All succeeding rules will be of little efficiency without the rigid observance of this fundamental one.

When the baby cries (as some babies are prone to do before taking our special course of training,) if you are its father, give it to its mother; if you are its mother, give it to its grandmother. That's what grandmothers are for—and they got a lot practice on you.

To stop a baby from fussing, pinch it on the lower left leg. That will make it cry.

When the baby has the stomach ache, pat it on the other side. Increase the dose until the desired result is attained. Soothing syrup in doses of about a quart and a half will also be found beneficial. The removal of a safety pin from the baby's epidermis will also often effect a complete and immediate cure.

Don't worry if the neighbors tell you the baby is a perfect picture of its papa. Babies seldom develop their good looks while young.

Don't stick your fingers into the baby's mouth when he is teething. There are other and more sanitary ways of washing your hands.

If the baby's food disagrees with her, take it away. She may learn the bad habit of "sassing back" from such associations.

When you go shopping, you will save yourself much annoyance by leaving the baby with a neighbor. By using diplomacy you can find out when your neighbor is going down town, when you will exhibit much wisdom by either being away yourself or sick in bed, for your neighbor may also be endeavoring to raise a baby by these same rules.

Every thoughtful and loving mother should arrange it so that when father comes home the baby will be asleep with enough soothing syrup to insure complete rest to his tired nerves during his hours at home. Wives will greatly add to the longevity of their hubbies by this method.

When baby is learning to talk, feed it castor oil. This will lubricate the tongue and vocal organs. For girl babies, substitute a muffer.

To familiarize yourself with the baby language, it is considered expedient for mother and father to prepare themselves as follows. Wifey should sit on hubby's lap just as she did in the happy period when babies were not considered. You should sit in the front bay window so all the neighbors can see you. This will tend to make you feel small and kiddish. Now put hot potatoes in your mouths and try to talk. Familiarize yourself with the sounds and the words they are meant for and you will find a great aid in understanding baby prattle. You will not say the same thing twice the same way—but neither will the baby.

When baby says and does cute things, just keep them to yourself. There is no sense in wasting the brightness of your family upon deluded parents who cannot be convinced that your baby is brighter than theirs.

If the baby is a girl, be sure to have its picture taken in the nude. She will take such a delight in exhibiting it to her sweethearts in later years.

For the father who wishes to learn to bathe and dress the baby, we furnish a special set of instructions in book form, gotten up in convenient pocket size. Illustrated by Teddy Roosevelt, a recognized international authority.

If these rules do not prove efficient and practical they can be supplemented with a correspondence course.

Not Touched by Human Hands

From the time the hard kernels of wheat are washed. Snow Drift Flour comes to you in as clean and pure a condition as one can imagine. Every batch of Snow Drift that goes through the mill is tested before it goes out. Bread is made of it in the mill's bake shop. Every batch of flour has to make perfect bread—else it doesn't go into the Snow Drift sacks. That is why the housewife who uses Snow Drift, all the time always has highly successful results in her baking of bread, biscuit and pastry.

HORSEMAN LAUGHS 12 HOURS: ELECTRIC SHOCK STOPS HIM.

LAWRENCEBURG, Ind., Nov. 19.—Trading a mule for a "shaved tail" horse appealed to the humor of S. H. Schrapp of this city and he began laughing. He laughed for an hour, with the tears rolling down his cheeks, and still he didn't stop. His friends, becoming alarmed, summoned a physician but the physician couldn't stop the hearty "ha, ha."

When six hours had passed and Schrapp was still convulsed with laughter, another physician was called and an electric battery was brought into play.

Just as the merry laugh had rounded out twelve hours, the trader was given a heavy electric shock, the "ha, ha" ceased and Schrapp fell over exhausted. It was thought for a time he would die, but today he shows no ill effects from the long laugh.

ST. LOUIS MAN BETS HE IS TANK: WILL DOWN 600 PINTS OF BEER.

ST. LOUIS, Mo., Nov. 19.—Col. Abe Slipsky, politician, philosopher, and reality owner, has begun an exhaustive test of man's capacity for beer. The colonel has bet \$100 against \$250 with two directors of a brewery that he can drink twenty pints of one brand of beer every day for the next thirty days, Sundays excepted.

The total quantity to be consumed is 600 pints, which equals 300 quarts, seventy gallons, or two whole barrels of beer.

Slipsky entered on the second day of his test. For each pint he drinks the waiter or bartender gives him a receipt and the receipts must be exhibited to the two directors as evidence of good faith.

BOYS SENTENCED TO CHURCH

KANSAS CITY, Mo., Nov. 19.—"Break rock for 100 days or go to church every Sunday for six months." This is the way William Volker, president of the Board of Public Welfare, sentenced three boys after they had been convicted of throwing eggs at pedestrians. When the boys appeared in the municipal court two of them were fined \$50 each and the third \$25. The lads were arrested October 31 on a charge of having thrown eggs at men who passed near their homes and their parents refused to come to their aid. After sentence had been passed upon them, all chose to attend church. In case they miss a service, without reasonable excuse, they will be sent to jail.

PROHIB LOSE TERRITORY AFTER TWO YEARS—WEST CARRIES COUNTY OVER BOWERMAN — FAVOR COUNTY HIGH SCHOOL

GOLD BEACH, Ore., Nov. 19.—After two years of prohibition, Curry county went "wet" at the last election by a vote of 244 against 224. The proposition to establish a county high school at Gold Beach carried by a vote of 221 to 184. West carried the county over Bowerman by a vote of 294 to 176. Hugh McLain for state railroad commissioner received 223 votes against 286 for his opponent, Mr. Miller. The vote on other contests of interest was as follows:

HAVE BUM JAIL.

The deplorable insanitary condition of the county jail is a disgrace to the county and a blot on the court, that will long be remembered. Those steel cells cost the county near one thousand dollars and the way they are rusting out for the want of a good roof over them, is a shame. When there is no more pride shown or interest taken in the court house or grounds, can it be wondered at why there is being a strong sentiment aroused throughout the county to change the location of the county seat?—Gold Beach Globe.
