OFFICIAL PAPER OF THE CITY OF MARSHFIELD.

THE CHEERFUL WAY.

TURN, if you please, from considering the objective problems of life and contemplate for the moment the cultivation of your own personality. Mr. Greenville Kiefers tells how, in his recently published volume, "How to Develop Self Confidence in Speech and Manner." It is easy if you follow instructions. They are furnished for every day in the year and an extra for leap year, which will come in handy in 1912. For instance, here are the rules for the twenty-seventh day.

Enthusiasm—Put inspiration to work. Be capable of great things. Enter with the whole heart upon every undertaking. Know no limitations. Seize great heights. Earnestness conquers in the face of every difficulty. Be doing great things now.

Exercise—Repeat these enthusiastically:

1. I have high ideas.
2. My enthusiasm is infectious.
3. I am in earnest.
4. My blood tingles for achievement.
5. I will achieve.

The passions are the only orators that always persuade; they are, as it were, a natural art, the rules of which are infallible, and the simplest man with passion is more persuasive than the most eloquent without it.—La Rochefoucauld.

Simple, isn't it? A little 10-minute exercise before the looking glass morning and evening, and there you are, all cheered up and ready to achieve. On the three hundred and sixty-sixth day you ought to be at the stage where you could say:

1. I have a motor car.
2. All my friends want to ride with me, they like it so.
3. Sure.
4. And a thousand dollars in the bank.
5. Hurrah!

After which you can give the book to a friend.

**HIGH AND LOW COST OF LIVING.**

THE great outcry against the high cost of living which some have called also the "cost of high living" still resounds through the land. But it is not only making itself heard in America but in Europe and everywhere that gold has become plentiful as a medium of exchange. Precisely what the cause of this high cost is—none of us can tell with certainty, and most of us can think of so many causes that we are at a loss to state one of them very clearly. This, however, is evident: that everybody is living better, dressing better, eating more abundantly and a better quality, sleeping better and without so much worry, and faring better every way than in 1896, when the cost of living was many times less and money extremely hard to get. The men and women who clearly remember those times are not necessarily very old, but a great many men and women today were only children then and charged with no responsibilities, and they are not, as a rule, able to make comparisons and contrasts by experience.

In 1896, the farmer was the principal objector to the low cost of living. Potatoes were then twenty-

five cents a bushel or less. Wheat brought between fifty and sixty cents a bushel. Twenty pounds of sugar could be bought for a dollar. Clothing was a drug on the market. Rents were low, labor could be employed for one dollar and a quarter a day—but most laborers had to beg to work at any price. The low cost of living did not seem to enable anybody to live more luxuriously and the housewife had a hundred times more worries than in these days of high cost. In those days people merely existed. In these days people save little, but live well. In 1896, it is safe to say that most working men and their families were half fed and half clothed. Now, they are not only fully fed and well clothed but are inclined to indulge many luxuries and the factories and workshops, not to say the farms, are being operated overtime and to their utmost capacity to clothe and feed the multitude. These are great times as the economic world goes—great times for the rich and poor—great times for capitalist and laborer. They are not the best times that the dreamer of dreams sees in his visions, but in reality the very best ever known in practical life. Better a thousand years of "high cost of living" with a good chance to live them than five years of "low cost of living" like those between 1892 and 1895.

**MOVING PICTURES PROGRESS.**

NO DOUBT motion pictures will always be exhibited to a great extent for entertainment purposes, but recent developments along more serious lines are interesting, says a writer in Success Magazine.

One film recently exhibited under the auspices of the American Civic Association was entitled "The Filthy Fly," and showed graphically the unsanitary habits of that insect. A wonderful new machine, by the way, taking two thousand pictures a second, has greatly facilitated the photographing of insects on the wing. It is hoped that there will be new light on the problem of flight as a result of the new device.

Moving pictures as a means of propaganda are suggested in the fact that films are being prepared showing the dangers of unhygienic dairy farms and teaching the value of clean milk. Pathe Freres, the well-known French film manufacturers, are now producing a sort of picture newspaper, setting forth current events in pictorial form. Thus far, it is said, these moving picture papers carry no advertising.

Of very great importance is the successful series of experiments in Munich, in which X-ray motion pictures of the internal organs of the human body were obtained. By the new device, digestion, for example, can be studied actually in progress. The discovery promises to add greatly to the sum of our knowledge of physiology and disease.

**BANDON SCHOOL TAX.**

Freeholders of the Bandon school district last night in public meeting voted a 15-mill tax to cover the expense of the present school year. This district tax, added to the state and county tax of 3 mills, makes a total school tax of 18 mills, as compared with 20-mill tax last year, though on a much higher present property valuation.—Bandon Eagle.

**LIBRARY NOTICE.**

On account of moving the books and furniture to the new quarters on the second floor of the Coke building, the library will be closed from Friday noon to Monday morning, and there will be no story hour on Saturday morning.

**WHAT CURES ECZEMA?**

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.  
Because—D. D. D. starts the cure at the foundation of the trouble.  
Because—It cleanses, soothes and heals the skin.  
Because—It enables Nature to repair the ravages of disease.  
Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema Cure.

**BETTER MAIL SERVICE NOW**

**Several Hours Delay Between Marshfield and Bandon Eliminated.**

A big improvement has been made in the Marshfield-Bandon mail service as a result of Postmaster Curtis taking the matter up with the department in response to a request from The Times. It will result in the Marshfield mail reaching Bandon anywhere from six to eighteen hours ahead of what it ordinarily would.

Formerly, Marshfield mail for Bandon was thrown in with the Coquille mail and sent to the Coquille postoffice where it was worked and put in a pouch for Bandon and sent down on the afternoon boat. If through any mishap, it didn't catch the afternoon mail boat, it had to lay in Coquille until the next day. For a time, The Times was able to avoid this unnecessary delay by making private arrangements for its Bandon papers to reach there earlier by sending them as outside mail to Coquille and having parties there to take them direct from the depot to the morning boat for Coquille. However, passengers on the boat got to opening the package with a result that many of the papers never reached The Times' subscribers in Bandon. Consequently The Times took it up with Postmaster Curtis to see if the Postoffice Department could not provide as speedy mail transportation as private concerns could. The result was that the Railway Mail Department has issued an order providing that the Marshfield mail for Bandon be put in a sealed pouch here and taken direct from the Coquille depot to the Bandon boat instead of going through the Coquille postoffice.

**ANOTHER SURVEY.**

MEDFORD, Ore., Dec. 1.—G. A. Kyle, the well-known engineer of the Hill lines, is surveying a line of railroad from Jacksonville, west over the mountains into Applegate Valley. He is ostensibly in the employ of W. S. Barnum, of the Rogue River Valley Road, but it is believed that Hill is feeling for an outlet to the coast for the Oregon Trunk Line.
