### You are Sure of a Perfect Match

"Yes, Madam, this fabric shows identically the same details and color as would be shown in broad daylight. You see I'm displaying the goods under the clear white rays of this wonderful new General Electric Mazda Lamp. It's really the equivalent of daylight, and that's why all up-to-date stores are using it. Of course there are also other vital reasons, one of which is this: the G-E. Mazda Lamp gives twice the light of the ordinary carbon incandescent lamp and costs less to burn.

The invention of the Marda Lamp has caused thomsands of people to have their houses and stores world for electric light. If you are not now using it, come in for a moment to-day and let us prove to your-entire satisfaction that this wonderful new lamp has made electric light as cheap as it is convenient.
