

LORIMER IS UPHeld BY SENATE SUB-COMMITTEE

Illinois Senator "White-Head" By Investigators Today.

MENTS MADE BY MINORITY MEMBERS

Money Was Passed by Illinois Legislature but Not Know Whose.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Dec. 17.—Lorimer was absolved of charges of having obtained his majority in the report of the committee of the senate committee on the committee today. The committee will meet Tuesday to report.

Report of investigation was made by a full committee of the senate which then adjourned Tuesday to give the members opportunity to study the evidence and the subcommittee's report. It was understood that there was money between certain members of the legislature was not by the sub-committee but that if votes of members were either with receiving or the money had been eliminated still would have had a vote of three votes. The subcommittee was a unit in asserting the evidence did show Lorimer was connected with the alleged "Jack Pot" or any other influence in the legislature in his behalf for the senate. It is understood certain members of the committee would issue statements of their belief that it had shown money had passed between certain members of the legislature. It was the understanding, however, that these statements were not in any sense be in the minority reports and that would not in any manner, how direct, reflect on the junior senator.

Another meeting will be held in the near future.

Soundings were made on the Coquille bar lately and sixteen feet were found at low tide. The dredge will be brought around from the Bay as soon as the weather will permit and the shoals on the lower river will be removed. With this done vessels of large capacity can then come into the river and carry our lumber and coal from the Coquille as cheaply as from any harbor along the coast.

The wife and daughter of Rev. W. T. Goulder who were taken down with typhoid immediately upon their arrival here, and which was contracted before coming here, are rapidly recovering after a long and tedious illness. The daughter, aged 13, had fever for 40 days and was very sick. We are glad to be able to announce their recovery.

W. S. Mack, of Parkersburg, who was in Coquille Monday, tells us that he recently returned from a visit with his parents, Mr. and Mrs. A. J. Mack, near Eugene. His father, a pioneer steamboat engineer of the Coquille, sends his regards to his many friends of the Coquille valley.

Dr. R. B. Hoag, of Pasadena, Cal., arrived here Monday and has decided to remain in Coquille. He has an office in the new Farmers and Merchants Bank building. His family consisting of a wife and two children will come soon.

SENATOR LODGE IS AGAINST GENERAL TARIFF COMMITTEE

Declares It Would Be a Mitigated Injustice to Business of Country.

ASKS THAT CUMMINS RESOLUTION BE BEATEN

Speaks in Favor of Revision of Law by Sections in Near Future.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Dec. 17.—Asserting that wholesale revision of the tariff would be an "unmitigated injustice to business in this county and ruinous to the party that undertakes it, Senator Lodge in a speech today in the Senate, supported the tariff amendment by sections. He spoke on a motion to refer the Cummins joint resolution to the committee on rules. The House, he said, now had the power to bring special rules to cut out the amendment. He believed the Senate could adopt similar plan. He did not believe it necessary for such a general law as is contemplated by the resolution. Lodge announced himself in accord with the President's tariff revision plan.

The house had been prettily decorated and the ceremony took place under an arch of flowers and greenery. After the ceremony a dainty dinner was served.—Enterprise.

HARD FIGHT WITH PANTHER.

The Coquille Herald says: Fred Coleman came in to see us while in town last Friday. He told us of having recently killed a panther at the Yoakum place which measured 7 feet and 11 inches in length and was an ugly animal when armed with nothing heavier than a 22, but good marksmanship proved sufficient to make up the deficiency and made Mr. Coleman master of the situation. Otherwise he might have had a pretty bad mess on his hands; as these are rather formidable animals to go up against when infuriated by a wound, and a man not well prepared to cope with him.
