VOTE IS DELAYED ON ACCOUNT OF IT

Bill Ordered for New Orleans Is Reported to House by Committee.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Jan. 24.—The Senate Committee on Industrial Expositions decided today to give two hours each to San Francisco and New Orleans for the presentation of the respective claims of recognition by the government. It is probable New Orleans will be heard Thursday and San Francisco Friday of this week.

An appropriation of one million dollars for the government exhibit at New Orleans in 1915 is carried in the New Orleans exposition bill reported to the House from the Committee on Industrial Arts and Expositions today.

The further hearings of the claims of San Francisco and New Orleans will delay the final decision of the site of the Panama exposition until these hearings are completed.

AUTHOR MAY SURVIVE SHOT

David Graham Phillips, Victim of Eccentric Musician, Has Chance to Recover.

(By Associated Press to Coos Bay Times.)

NEW YORK, N. Y., Jan. 24.—His chances are fair," was this morning's report from the bedside of David Graham Phillips, who was shot yesterday afternoon by Fitzhugh C. Goldsborough, an eccentric musician with a fancied grievance. Little has developed as to the cause of the shooting. For some time Phillips has been receiving the threatening notes, telegrams and telephone calls, and Goldsborough had been heard to say that he had a grudge against a "certain writer" on account of magazine articles.

Goldsborough's friends are able to shed no light on his motive.

WHAT ADVERTISING IS.

ADVERTISING is today the mightiest factor in the business world. It is an evolution of modern industrial competition. It is a business-builder, with a potency that goes beyond human desire. It is something more than a "drummer" knocking at the door of the consumer—something more than mere salesmanship-on-paper. It is a positive, creative force in business. It builds factories, skyscrapers and railroads. It makes two blades of grass grow in the business world where only one grew before. It multiplies human wants and intensifies human desires. It furnishes excuse to timorous and hesitating ones for possessing the things which under former conditions they could easily get along without.

The human mind is so constructed that it is appreciably affected by repetition—and, after all, advertising is only repetition.—Truman A. DeWeese.

SENSATIONS IN ELECTION FRAUDS

Danville Grand Jury Appeals to Court For Further Aid In Investigating Charges.

(By Associated Press to Coos Bay Times.)

DANVILLE, Ill., Jan. 24.—Foreman Isaac Woodyard of the Vermillion county grand jury appeared before Circuit Judge Kimbough as soon as the latter opened court today and asked the court to cause Sheriff Shepard to explain why he would not serve the subpoenas given him by the grand jury.

Woodyard also asked that a deputy sheriff other than "Dr." Fred Vutrich be appointed to guard the grand jury room.

Woodyard's request caused a sensation inasmuch as Shepard was

mentioned in the first reports, which later were denied, as having admitted buying votes. It was for him, according to stories, that City Attorney Jones is alleged to have bought votes, as related to the grand jury yesterday by newspaper men. Vutrich was one Shepard's chief henchmen in the last election. Among these for whom subpoenas have been issued for appearance today were City Attorney Jones, whose alleged conversation with two newspapermen and subsequent assertions and denials brought the investigation to a crisis. E. X. Lesure, Speaker Cannon's son-in-law, and Peter Sanchias, a Greek politician from Frankenberg.

At Lesure's home it was said he left the city but it was not known when he would return.

AFTER ALLEGED ACID THROWER

Despicable Attempt Alleged to Have Been Made On Mrs. Dade Haynes.

Four or five attempts are alleged to have been made to throw acid on Mrs. Dade Haynes while en route from their ranch on the Libby road south of Marshfield to town. Last night Marshal Carter, Constable Cox and Special Policeman Richardson made an endeavor to catch the alleged acid thrower in the act but he eluded them. However, they have a clue and hope to be able to land him soon.

The motive for the despicable attempt is not known.

Mrs. Haynes is the wife of the former garbage man. Dade Haynes has recently been working on the dredge Oregon and during his absence she has been driving to town in the evenings to deliver milk.

Last Friday evening, according to her reports to the officers, the first attempt was made. Some one hidden in the bushes alongside of the road, she alleges, squirted acid at her, evidently using a squirt gun. The first time, the acid fell on the wagon and did not strike her but the odor of it was plain. It was dark and she simply hastened along to escape.

Again on two other nights, similar attempts were made and the last time, some of the acid struck her and burned the flesh on her arm considerably.

Last night the officers named laid in wait in the vicinity where the acid is alleged to have been thrown but the miscreant escaped. They heard a rowboat in a neck of the inlet nearby and believe this was the offender but they were unable to locate him.

Careful watch will be kept in hopes of capturing him later and the clues in the case will be carefully run down.

WILL REMODEL THEIR STORE

Magnes & Matson Commence Work On Important Alterations In Establishment.

Work was commenced this morning on a number of important alterations and additions to the Magnes & Matson store. One-half the upper story has been leased for additional stock and a stairway is being erected from the gallery to the new department. A portion of the gallery is to be fitted up as a ladies' rest room and writing room. Some especially fine clothing and suit cabinets are to be installed on the first floor which will be divided into ladies and gentlemen's departments and kept separate. The waterfront end of the store is to be fitted with plate glass display windows and a double entrance.

When completed it will transform the establishment into another of the evidences of metropolitanism that mark the advance of Marshfield into a city.

"We have felt the need of more room for some time," remarked Mr. Matson this morning in discussing the improvements, "and have abundant faith in the future growth and prosperity of Coos Bay and Coos county and are at all times anxious and willing to do our share in promoting it. As evidence of this I may mention that all the cabinets and new fixtures are to be made on Coos Bay although we had lower figures from outside. We are firm believers in home industry and home trade and are always willing to practice what we preach."

JUDGE HALL ON OLD WAGON ROAD

Intimates That Contractor Barnard Wants to Shift Mail Service.

"There seems to be an effort to throw the mail service off the old Coos Bay wagon road and have it all placed on the Myrtle Point route and this, I believe, is the motive of the Contractor Barnard's protests against the old road," said Judge John F. Hall of the Coos county court this morning in discussing the criticism of the old road.

"I went over the road in December and with the exception of three places it was in good shape for this season of the year. I ordered those repaired.

"Yesterday Tom Boone, road supervisor at Fairview, told me that the mail carrier had left his horses east of Sumner when they became worn out and went to Sumner personally to get food and refreshments. Leaving tired out horses along the road without shelter from the cold or rain will soon get horses in such shape that they could not handle the business over any kind of a road.

"If Mr. Barnard did not have the contract for the Myrtle Point road, you would not hear near the protests about the old Coos Bay wagon road. If he is permitted to put all the mail over the Myrtle Point road, he can handle it cheaper and make more money out of it."

Several New Business Blocks Are Being Projected In Marshfield.

SOME GOOD OFFERS FOR LEASES MADE

R. C. Cordes, J. W. Bennett, Wm. Grimes and Noble Estate Figuring.

Four fine new brick blocks are now in prospect for Marshfield the coming summer. None of the propositions have been definitely decided but the next few weeks will probably bring the projects to a focus.

According to a well authenticated report today, R. C. Cordes is being negotiated with by parties desiring him to build a brick block at the corner of Commercial and Broadway where his residence now stands. The report is that he has been offered \$200 per month rent for the ground floor of the block on a long term lease. Mr. Cordes could not be seen today relative to the matter.

Another well authenticated report is that J. W. Bennett is considering the erection of a fine brick or concrete building at the corner of Broadway and Market avenues where his residence now stands. It is understood that he has had opportunity for some good leases and besides this, he is figuring on a new residence anyway, a location further from the business section.

Col. Grimes last year agreed with W. S. Chandler and John S. Coke that if they would rush the Coke block through, he would put up a fine building on his holdings at the southwest corner of Central avenue and Second street. He has had preliminary plans made for it.

The Wm. Noble estate has been figuring for sometime with parties relative to erecting a business block at southwest corner of Third and Central avenue. Nothing definite has developed from the negotiations, so far as could be learned today.
