(By Associated Press to Coos Bay Times.)

EL PASO, Tex., Feb. 6.—Out-generaled in the efforts to prevent the entrance into Juarez of Colonel Rago and 300 federal troops from the South Mexican Revolutionists under Orozco were reported today to have retired for supplies and ammunition and to await reinforcements. Alanis with an insurgent force of five hundred had an encounter with one hundred federals last night 25 miles east of Juarez, the federals retiring. Alanis is expected to join Orozco in the mean time and General Navarro with 700 federals is reported making forced marches overland to relieve the beleaguered city. Should he succeed in entering the city the insurgents will have their work cut out for them. With the fear of immediate attack of the city dissipated, business generally was resumed today.

The insurrecto Junta in El Paso announced today that Orozco and his force had not retired to Samalayuca as reported but had taken up a position ten miles west of Juarez within easy striking distance of town.

MACON IS HOT AT NEWSPAPERS

Representative Appeals to House For Aid In Curbing Unfriendly Press.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Feb. 6.—There was a remarkable scene in the House when Macon on a motion of privilege arraigned newspapermen who, he claimed, sought to intimidate him and dramatically asked what protection members of congress had. The incident was the outgrowth of a passage Saturday between Macon and a newspaper correspondent whom he had denounced.

The House adopted a resolution offered by Gardiner of Massachusetts providing for a full investigation of the incident by a sub-committee of judiciary committee, empowered to summon and examine witness under oath and report February 18.

Macon related the incident on the floor of the House after adjournment Saturday at which he criticized sharply the reports of a newspaper correspondent. Hot words passed and friends separated Macon and the newspaper man. "The question is just this," Macon concluded, "Are members of the House to be protected by the constitution or must they protect themselves with a shot gun. If the latter be the policy, I want to get my gun today."

Macon insisted that for some reason the newspapers have been unfriendly to him ever since he came into the House.

POPULAR ELECTION OF SENATORS IS SCORED BY SENATOR LODGE

TALKS ABOUT NEW RAILWAYS

Part of Extensions Planned by Southern Pacific Out-lined.

NEW YORK, N. Y., Feb. 6.—In his statement of the action taken by the Union and Southern Pacific executive committees, President Lovett placed the emphasis on the announcement of double-tracking to cost \$75,000,000. There was another item in the statement, however, which will probably require greater outlay and add decidedly more to the earning power of the Harriman lines. This item was approval of long-contemplated plans for extensions and new lines, this expenditure to extend over a period of six years.

The extensions include the bisection of Washington by the completion of the North Coast from Spokane to Seattle and from Spokane to Lewiston; the construction of numerous branches of this line for the development of the state; an east and west line across Oregon from Ontario on the eastern border, through the Harney Valley, to connect with the Southern Pacific's new main line from Klamath Falls to Natron, and the continuation of the Southern Pacific to Crescent City, Cal., from Grants Pass.

The Northwestern Pacific, which has been surveyed along the north California coast from Sherwood, Cal., will be extended to Crescent City to connect with the new line from Grants Pass.

An extension of the Deschutes line will be built from Redmond to Odell on the Natron-Klamath cutoff and a connection with the proposed east and west road from Redmond to Burns via Prineville is contemplated.

The great triangle bounded by the Central Pacific, the Southern Coast lines north to Portland and the Navigation company and Short Line contains 50,000,000 acres capable, with moderate irrigation, of producing a vast amount of grain and fruit. It will yield a boundless supply of timber, is already producing considerable ore and promises oil.

Massachusetts Man Declares That Plan Is Blow at Constitution.

VIOLATES INTENTS OF THE ORGANIZERS

Delivers Lengthy Speech Opposing Submission of It to States.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Feb. 6.—Resistance to the utmost to the attempts to transfer from Congress to the various state legislatures the control of the time and manner of election of United States senators as proposed by resolution providing for their election by the direct vote of the people, was advised by Senator Lodge of Massachusetts in a speech in the senate today.

Lodge was speaking in opposition to the proposed new amendment to constitution as a whole, but he found an especial topic in the portion placing the direct management of the details of senatorial elections in the various state legislatures.

Declaring the proposed change in that respect "strikes at the very foundation of our national government," Lodge said the plan violates the plans of the framers of the constitution.

Lodge said "If this amendment should become a law twenty-three states, including perhaps only a minority of the population, could at any moment arrest the movement of the government and stop all its operations." The senator denounced as "mockery" the "claim" that the proposed legislation was "progression." Not only was it mockery, but it was retrogression and reaction of an extreme kind," he declared.
