BRIEFS OF BANDON.

News of the Lower Coquille As Told By The Recorder.

A fine baby boy was born to Mr. and Mrs. Frank Perry Monday morning.

Dr. L. P. Sorensen was the victim of a surprise last Saturday night the occasion being his blanketh birthday.

R. M. Pressey had the misfortune to get his arm broken last Tuesday by a log rolling on it at his Four Mile ranch.

Joseph Coumerilh and son, B. J. Coumerilh, have bought the Coumerilh-Christensen Co.'s stock. The present intention is to close out the major portion of the stock and lay in a new stock of ladies' ready-to-wear goods and furnishings. The new firm will be known as the Bandon Dry Goods Co., and B. J. Coumerilh will be the manager of the business and for the present will be assisted in the store by Mrs. Coumerilh.

The new Bandon Basket Splint factory is now in full operation, turning out the splints at the rate of 45,000 a day. The splints are made from clear spruce, are 32 inches long and 2 1/4 inches wide. The machinery was installed by C. D. Edwards, who had been here looking over the situation with the view of locating. The splints are being made for the Portland Fruit Basket and Handle Co., of which firm Mr. Edwards is a member.

The new Kruse Shingle mill just this side of Prosper started up last week. This company was incorporated the first of the year and numbers among its stockholders some of the best lumber and timber men on the river. The officers of the company are E. E. Johnson, president, A. E. Kruse vice-president and manager, and John Aasen, sec. and treas. The new mill's capacity is in the neighborhood of 60,000 shingles per day. The logs for the mill will be supplied by Aasen Bros.

A LOCOMOTIVE OF APPLES.

One of the most unique and attractive features on exhibition at the great horticultural exhibition recently held at Sebastopol, Cal., says a writer in the January Wide World, was a huge "apple locomotive." All the exterior parts of this immense "fruit engine" were composed of large and beautiful apples, of which thousands were used in the completion of the work. At first a wooden frame—an exact duplicate of a railway engine—was built, and all over this were placed apples, in tasty and artistic patterns. When all this work was completed there stood the perfect figure of a big "apple locomotive." Under a brilliant electric light the work presented a magnificent appearance—fairly dazzling. To build such a figure required much care, artistic skill, time and no little expense. The total length of this "fruit engine" is twenty-six feet, while from the apple roadbed and ties up to the top of the stack is nearly ten feet. No detail has been omitted in the work. Every appurtenance belonging to a real genuine locomotive is there, including cowcatcher, boiler, headlight, stack, whistle, bell, sand chamber, cab and tender. It is needless to add that this splendid piece of work was the central figure of public admiration, interest and curiosity; also that the huge "apple locomotive" was awarded the highest premium of the horticultural exposition.

BILLS PASSED LEGISLATURE

(Continued from page 1.)

of Oregon State Reform School to Oregon Industrial school.

New Senate Bills.

STATEHOUSE, Salem, Ore., Feb. 9.—The following new bills were introduced in the Senate:

S. B. 251, Selling—Giving municipal corporations the right to condemn.

S. B. 253, Merryman—Limiting catching salmon in Klamath river to five fish daily.

S. B. 255, Carson—Authorizing addition to Statehouse and appropriating \$200,000.

S. B. 257, Carson—Licensing dogs. The fees to be paid to County Assessors.

S. B. 258, Bean—Basing party strength on registration of voters.

Failed to Pass.

H. B. 123, Miller, of Columbia—For additional costs in actions of wages.

Senate Bills Passed.

Following bills were passed by the Senate:

S. B. 117, Chase—Compelling school children to be in a sanitary condition.

S. B. 140, Bean—Adding one regent and Board of Education to university.

S. B. 213, Carson—Permitting stock to run at large in mountains of Marlon county.

Oregon On Tariff.

The legislature also prepared a petition, calling on President Taft to call an extra session of Congress for the purpose of revising the tariff "along lines of true progressive Republicanism." A copy was wired to Taft.

County Division Bill.

Senator Wood's bill providing for a new system of creating and annexation of counties passed the Senate, but on finding an error in enrolling of the bill, it was reconsidered and will come up again for a vote tomorrow. But two votes were registered against it.

Senator Wood's annexation plan provides for a vote of 50 per cent or more in each division interested, while the creation of a new county is operated on a basis of 65 and 36

per cent of the votes in the district. Aid District Fairs.

What promises to bring out a flood of bills for aid of county fairs came in the passage by the Senate of the Bean and Calkins bill.

The bill asks for an increase of appropriation from \$3,600 to \$4,800 for the Southern Oregon District Agricultural Society and an increase of from two to four fairs.

Objections came from many Senators as to the policy of increasing small fair appropriations, but they made a threat that if the bill should pass there would be many more appropriation bills of that nature. The bill passed with 20 for and four against.

WHAT THEY SAY.

Little Interviews With People About Town.

"I would hate to get reckless and prophesy on the weather in this country. I think too much of my reputation for that."—Alex Hall.

"Isn't it funny that some people cannot enter a furniture store and walk down the aisle between the tables, china closets, book cases and other pieces of furniture without dragging their hands along and touching each piece of the highly polished furniture. We have to go over every piece every day and rub off the finger prints of these thoughtless ones."—A Furniture Dealer.

"Do you know that you need 2,000 calories or heat units to give sufficient sustenance to your body for a day? If you don't get that much you begin to fail, get anemic or consumptive or something like that and ultimately you die. The working man needs about 200 calories, the office worker about 2,750 but you must have 2,000 or you are a dead one. Now lettuce or cabbage has 40 heat units and if you ate nothing else, you would have to eat fifty a day to keep alive—imagine! Cheese has 80 or 90 calories to an ounce; one ounce of sugar has 110; one orange (7 oz.) has 105; roast beef (12 oz.) has 780 calories; roast pork has 760. It's very interesting to study the thing out." remarked a Marshfield man who is doing the Fletcher stunt to improve his digestion.

CALIFORNIA IN LINE.

Senate Provides for Initiative and Referendum.

(By Associated Press to Coos Bay Times.)

SACRAMENTO, Cal., Feb. 9. — Senator Gates' constitutional amendment providing for the initiative and referendum passed by the senate by a vote of 35 to 1.

FOR RENT—Five-room house partly furnished, \$9.00 per month.—W. C. Lund, Ferndale.

Eczema Cure a Beauty Wash

Although D. D. Prescription has been recognized for years as the one remedy for Eczema, Psoriasis, and all other forms of skin diseases, it is now known that there is no other wash, even those used by the beauty specialists, that can compare with this mild liquid for cleansing the skin of pimples, blackheads, rash, and all similar skin affections.

For this reason alone, a bottle of D. D. D. should be kept on hand in every household. A trial 25c bottle will show you the merits of this great remedy as a complexion wash.

D. D. D. seems to remove the cause, whatever the trouble may be, cleansing the skin, and leaving it as soft, as smooth and clear as that of a healthy child.

Get a 25c bottle today and keep it in the house.—Red Cross Drug Store.
