The Race With the Ram.

In Morocco the strange season of the Mohammedan new year, beginning March 9, is generally called "Al-el-Hanwela," the ram feast. The people of Morocco pay more elaborate attention to the item of sacrifice than any other Moslems. In every town a supreme offering of a ram or he goat takes place at the door of the principal mosque. Immediately after it is struck by the official imam in presence of the multitude it is flung on the shoulders of a stalwart Moor, who, exerting his utmost strength, runs like a deer through the narrow streets, pursued by a rabble. The poor animal is pelted with stones by boys and is jeered at with execrations from every house, as it is reputed to be carrying the sins of the people. The man rushes along with his burden till he reaches the door of the caidi's palace. If the animal is still breathing the augury is excellent, for good luck is to be expected all through the year. But if the ram is dead all sorts of evil prognostications are muttered.

**RETRACTS HIS
STATEMENTS**

Cleveland Moffett and Hampton's Magazine Exonerate Standard Oil Co.

The following self-explanatory statement concerning the Standard Oil company's libel suit has been issued:

**THE STANDARD OIL COMPANY'S
LIBEL SUITS.**

In the matter of the libel suits brought by the Standard Oil company for \$250,000 damages against Hampton's Magazine and for \$100,000 damages against Cleveland Moffett, the former, the publisher, and the latter the writer, of an article in the February issue of the magazine, which defamed the company in connection with the sale of glucose and candy in Philadelphia, the following retractions have been signed and are issued from the company's offices at No. 26 Broadway, New York.

"Hampton Magazine" 66 West 25th St., New York January 31, 1911.

Standard Oil Company, 26 Broadway, New York.

Dear Sirs:

In the February issue of Hampton's Magazine, there was published an article, written by me, entitled "Cassidy and the Food Poisoners." In that article I referred to the investigation of Mr. Cassidy, with respect to the manufacture and sale of impure candies in Philadelphia, and made the statement that your Company manufactured and sold impure material which went into these candies and that, when the various dealers were arrested and fined, at the instance of Mr. Cassidy, your company paid the fines.

Upon investigation, I have ascertained that your company was in no way connected with the transactions referred to and I hasten to retract in the fullest manner all charges made against your company and to express my sincere regret that I should have fallen into this serious error.

Yours truly,
CLEVELAND MOFFETT.

Standard Oil Company, New York City.

Dear Sirs:

Referring to the foregoing letter of Mr. Cleveland Moffett to you, we beg to state that we are convinced that Mr. Moffett was in error in his statements with reference to your company. We greatly regret that this error should have been made. It is the desire of Hampton's Magazine to be accurate and fair in all things. In our March number we will publish this letter and the foregoing letter of Mr. Moffett.

Yours truly,
BENJ. B. HAMPTON,
President Broadway Magazine Inc.

**President Continues Trip to
Boost Reciprocity Treaty
With Canada.**

(By Associated Press to Coos Bay Times.)

CHAMPAIGN, Ill., Feb. 11.—President Taft after an all night run from Columbus arrived here today and started in his second day of speech-making in support proposed of the reciprocity treaty with Canada.

"We shall be blind, indeed," said Taft, "if we reject this golden opportunity to do to the strength and virility of our country by thus increasing our self supporting capacity."

INVENTS GAS BUOY.

Captain Macgenn Says He Has Overcome Tidal Troubles.

PORTLAND, Ore., Feb. 11.—To affix a rudder to a gas buoy that the buoy may be held parallel to the current at all times, while the receiver or illuminating apparatus remains perpendicular under all conditions suspended from a universal joint, is a device perfected by Captain T. J. Macgenn, master of the steamer Breakwater. Captain Macgenn says his invention will revolutionize the present methods employed in gas-buoy construction. A copper model has been completed by the mechanical force of the O.-W.-R. & N., and an application for a patent has been forwarded to Washington by W. H. Litzenberg of the legal department of the system.

**First Aid to the
Doctor**

The Doctor first, of course, in sickness or injury, but a drug store capable of supplying him with drugs, medicines and sick room goods is also a prime requisite. You never need this drug store more than when serious sickness comes—the more critical the illness the greater the need. The Doctor first, the prescription to us, we do the rest.
